

List of Figures

Figure 1	Study Framework and Study Items	2
Figure 2	Three-Level Hierarchy System of LNG Supply Chain Infrastructure	3
Figure 3	Flow of LNG Supply Chain Infrastructure Development Investment Estimation	4
Figure 4	Map of Natural Gas Pipelines in ASEAN and India	5
Figure 5	Configuration of the LNG Value Chain	10
Figure 6	Illustration of Modal Choice in Japanese Cases	13
Figure 7	FSRU and Delivery of LNG	15
Figure 8	Hierarchical and Horizontal Networks of LNG Terminals	16
Figure 9	LNG Distribution by Road (Truck)	17
Figure 10	LNG Distribution by Rail (Japex)	18
Figure 11	Virtual Pipelines Sines-Madeira (road-ship-road)	19
Figure 12	Distribution of LNG Consumption at Provincial Level in ASEAN and India	24
Figure 13	Cover Area of Each Primary LNG Terminal in 2030	27
Figure 14	LNG Terminal Location (hierarchized)	28
Figure 15	Existing, Planned, and Added Primary LNG Terminals	29
Figure 16	Cover Area of Each Primary LNG Terminal in 2030	30
Figure 17	Estimation of Unit Investment on LNG Terminal Construction in Japan	70
Figure 18	Summary of Unit Investment on LNG Supply Chain Infrastructure Development	72
Figure 19	Legal and Regulation Layers of Japan's Gas Business	82
Figure 20	Legal Framework of LNG/Natural Gas Terminal and Delivery	85

List of Tables

Table 1	Transport Mode Assignment Rules	8
Table 2	Typical Modes of LNG and Natural Gas Transport: Japanese Experience	12
Table 3	Typical Radius of Offshore LNG Transport	14
Table 4	Typical Radius of Onshore LNG Transport	18
Table 5	LNG Delivery Network with Primary and Secondary LNG-Receiving Terminals	21
Table 6	LNG Delivery Network with FSRU	22
Table 7	Virtual Pipeline Linking Several Small LNG-Receiving Terminals/Satellites	22
Table 8	Dataset and Source of Information for LNG Supply Chain Infrastructure Analysis	26
Table 9	Criteria for LNG Transport Mode Assignment	26
Table 10	List of New Gas Thermal Power Plants × Pipeline	32
Table 11	List of New Gas Thermal Power Plants × Railway	34
Table 12	List of New Gas Thermal Power Plants × Truck Transport with ISO Containers	36
Table 13	List of Fuel Conversion Thermal Power Plants × Pipeline	39
Table 14	List of Fuel Conversion Thermal Power Plants × Railway	43
Table 15	List of Fuel Conversion Thermal Power Plants × Truck Transport with ISO Containers	48
Table 16	List of Additional Demand Points × Pipeline	51
Table 17	List of Additional Demand Points × Railway	52
Table 18	List of Additional Demand Points × Truck Transport with ISO Container	53
Table 19	List of Additional Demand Points × Truck Transport with ISO Container (expansion)	65
Table 20	Scope of the Cost Component	68
Table 21	Typical Investment Cost for LNG Carriers, Crew, and Harbour Cost	68
Table 22	Comparison of Onshore LNG Terminal and FSU/FSRU	69
Table 23	Typical Cost of a Primary Terminal and Gas-Fired Power Plant Package	69
Table 24	Unit investment of Natural Gas transmission pipeline in Japan	71
Table 25	Estimated Investment for Primary Terminal until 2030	74
Table 26	Estimated Investment for Secondary Terminal until 2030	75
Table 27	Estimated Investment for Pipelines of New Gas Thermal Power Plants until 2030	76

Table 28	Estimated Investment for Pipelines of Converted Gas Thermal Power Plants till 2030	77
Table 29	Estimated Investment for ISO Containers until 2030	79
Table 30	Estimated Investment for Satellite Facilities until 2030	79
