

List of Tables

Table 1.1	Natural Disaster Occurrence and Impacts by Region	5
Table 1.2	A List of Chapters	16
Table 2.1	The Results of Aggregate CTB	35
Table 2.2	The Effect of Habagat on Deep Parameters in CTB	36
Table 2.3	The Number of the Damages	37
Table 2.4	The Number of the Damages= 0/1 vs 4/5 or 0/1 vs 3/4/5/6	38
Table 2.5	The Results in Aggregate DMPL	39
Table 2.6	The Dummy Variable of Switching (Holt Laury)	39
Table 2.7	DMPL considering Switching	39
Table 2.8	The Effect of Habagat on Deep Parameters in DMPL	40
Table 2.9	The Effect of Habagat on Deep Parameters in Holt and Laury	41
Table 2.10	The Result of Individual CTB	42
Table 2.11	OLS Regression	43
Table 2.12	The Result in Individual CTB without Outliers	45
Table 2.13	OLS Regression without Outliers	45
Table 2.14	The Relationship between the Amount of Donation, the Partner and Habagat	48
Table 2.15	The Relationship between the Amount of Donation, the Deep Parameters, the Partner and Habagat	50
Table 2.16	The Relationship between Risk Taking Behavior and Deep Parameters	53
Table 3.1	Sample Size of the Survey	62
Table 3.2	Characteristics of the 2011 Mega Flood by Province	64

Table 3.3A	Descriptive Statistics of Households by Province (as of 2014)	65
Table 3.3B	Descriptive Statistics of Flood and Non-Flood Households (as of 2014)	66
Table 3.4	Descriptive Statistics of Risk Coping Strategies during the 2011 Mega Flood by Province	67
Table 3.5	Descriptive Statistics of Subjective Expectations	69
Table 3.6	Regression Analysis of Subjective Expectations	72
Table 3.7	Descriptive Statistics of Household's Preference Measures	73
Table 3.8	Regression Analysis of Preference Measures	75
Table 3.9	Descriptive Statistics of Strategies for Future Floods	76
Table 3.10	Regression Analysis of Strategies for Future Floods	77
Table 4.1	Sampling and Summary Statistics of the 2011 Mega Flood by Studied Province	93
Table 4.2	Summary Statistics of Sampled Households by Flood Exposure	100
Table 4.3	Summary Statistics of Preference and Behavioral Variables by Flood Exposure	102
Table 4.4	The Mega flood and Risk Aversion	111
Table 4.5	The Mega Flood and Impatience	114
Table 4.6	The Mega Flood and Altruism	116
Table 4.7	The Mega Flood and Trust	118
Table 4.8	The Mega Flood and Subjective Expectation of Future Flood	120
Table 4.9	The Mega Flood and Safety Net Perceptions	122
Table 4.10	The Mega Flood and Behavioral Choices	124
Table 5.1	The Average Numbers of Natural Disasters and Epidemics per Commune in the Five Years to 2004	135

Table 5.2	Past Loss Experience of Households in the Last Five Years	136
Table 5.3	Fixed Values of the Relative Risk Aversion Parameter ry^h	142
Table 6.1	The Results in Aggregate CTB	170
Table 6.2	Summary Statistics w.o. Outliers	171
Table 6.3	Today by half a year ago	171
Table 6.4	The Economic Condition	172
Table 6.5	CTB results of Each Individual Group	173
Table 6.6	Summary Statistics	174
Table 6.7	The Relationship between the amount of Donation and Earthquakes	175
Table 6.8	The Relationship between the amount of Donation and Deep Parameters	178
Table 6.9	The Relationship between Questions and Deep Parameters (Orders Probit)	182
Table 6.10	The Relationship between Questions and Deep Parameters (continued)(Orders Probit)	183
Table 6.A.1	The Relationship between Question and Deep Parameters (Linear Regression)	192
Table 6.A.2	The Relationship between Question and Deep Parameters (continued) (Linear Regression)	193
Table 6.A.3	The Relationship between the Amount of Public Money and the Number of Neighborhood	194
Table 6.A.4	The Relationship between the Amount of Public Money, the Number of Neighborhood and the	195
Table 6.A.5	Tabulations of Responses to Hypothetical Time Preference Questions	196
Table 6.A.6	The Relationship between Subjective Hyperbolic Discounting and the Severity of the Damage	197
Table 6.A.7	The Relationship between Subjective Hyperbolic Discounting and Temporary Residence	198

Table 6.A.8	The Relationship between Presentbias and Temporary Residence	199
Table 7.1	Number of Respondents in Our Study	209
Table 7.2	Household-Level Damage (In Percentage)	210
Table 7.3	School and Classroom Damage(In Percentage)	211
Table 7.4	Variables on Damage and Environmental Changes	211
Table 7.5	Psychological Measures	213
Table 7.6	Psychological Measures by County and School Type	215
Table 7.7	Changes in Official Test Scores and Study Hours	216
Table 7.8	Unconditional ATT of Exogenous Shocks on Non-Cognitive Outcomes	220
Table 7.9	Unconditional ATT of Exogenous Shocks on Cognitive Outcomes	221
Table 7.10	Conditional ATT of Exogenous Shocks on Non-Cognitive and Cognitive Outcomes	223
Table 8.1	Overall Trend of Psychological Health	242
Table 8.2	Balancing Test with Parents Survey	243
Table 8.3	Overall Regressions with Parents' Survey	245
Table 8.4	Overall Regressions with Teachers' Survey	246
Table 8.5	Individual Participation OLS Regressions	247
Table 8.6	Individual Participation FE Regressions	248
Table 8.7	Outdoor play OLS regressions	250
Table 8.8	Outdoor Play FE Regressions	251
Table 8.9	PEP Kids OLS Regressions	252
Table 8.10	PEP Kids FE Regressions	252
Table 8.11	Kindergarten Regressions with Parents' Survey	254

Table 8.12	Kindergarten Regressions with Teachers' Survey	254
Table 8.13	Evacuation OLS Regressions	255
Table 8.14	Evacuation FE Regressions	256
Table 8.15	Early OLS Regressions in Parents' Survey	257
Table 8.16	Early FE Regressions in Parents' Survey	257
Table 8.17	Early OLS Regressions in Teachers' Survey	258
Table 8.18	Early FE Regressions in Teachers' Survey	258
Table 9.1	Source of the most significant uncertainty for profit	271
Table 9.2	Descriptive statistics	273
Table 9.3	Determinants of risk measures based on hypothetical questions	275
Table 9.4	Risk Preference and Investment Sources	277
Table 9.5	Risk Preference and Investment on Equipment and Fire Safety Measures	278
