

List of Tables

Table 2.1-1	Estimated Capacity Addition of 9,865 MW in the Philippines	9
Table 2.1-2	National Energy Master Plan	13
Table 2.1-3	CO ₂ Tax	14
Table 2.1-4	Priority to Indigenous and Renewable Options	14
Table 2.1-5	Status of Geothermal Energy	15
Table 2.2-1	Present Status of Geothermal Use in Each Country	16
Table 2.3-1	Geothermal Potential of China	17
Table 2.3-2	Geothermal Potential of Indonesia	18
Table 2.3-3	Geothermal Potential of Japan	19
Table 2.3-4	Geothermal Potential of South Korea	19
Table 2.3-5	Geothermal Potential of the Philippines	20
Table 2.3-6	Geothermal Potential of Thailand	20
Table 2.3-7	Geothermal Potential of Viet Nam	20
Table 2.4-1	Development Trends of Geothermal Energy Use in Each Country	21
Table 2.5-1	Topics of Interest for Sustainable Use of Geothermal Energy	23
Table 3.1-1	Technical Barriers for Geothermal Power Generation for Different Stages	28
Table 3.1-2	Technical Barriers for Direct Use for Different Stages	29
Table 3.1-3	Technical Barriers for GSHP for Different Stages	30
Table 3.1-4	Other Barriers for Geothermal Energy Use: Competitors	31
Table 3.2-1	Environmental Protection Legislation Related to Geothermal Development	32
Table 3.2-2	Requirement of Environmental Impact Statements and/or Reports	32
Table 3.2-3	Other Environmental Protection Matters	33
Table 3.3-1	Is Geothermal Energy Recognised?	34
Table 3.4-1	Does a Specific Geothermal Legislation Exist?	35
Table 3.4-2	Part of Mining Legislation or Separate Legislation?	36
Table 3.4-3	What Licences Are Required?	37
Table 3.4-4	Who is the Licensing Authority?	38
Table 3.4-5	Is it Taxable?	39
Table 3.5-1	Does a Drilling Risk Guarantee Exist?	39
Table 3.5-2	Are there Companies Specialised in Geothermal Projects?	40
Table 3.5-3	Are there Financial Institutions Providing R&D Grants or Banks Providing Development Loans and/or Guarantees?	41
Table 3.5-4	Are there Private Investors?	42
Table 3.6-1	Supportive Measures in Each Country	45
Table 3.6-2	Supportive Measures in Each Country (FiT or RPS)	46

Table 3.7-1	Availability of Information through Certain Information Channels	47
Table 3.8-1	Future Concerns on Political or Governmental Support	48
Table 3.8-2	Future Concerns on Technology and/or Instrument	49
Table 3.8-3	Future Concerns from Social and/or Economic Viewpoint	50
Table 3.9-1	Ongoing International R&D Frameworks and/or Frameworks Needed for Further Development	53
Table 3.10-1	Other Relevant Issues	54
Table 4.2-1	Summary of Case Study of Six Geothermal Power Plants in Indonesia	73
Table 4.6-1.	Summary of Subsidence Anomalies in New Zealand Geothermal Fields	102
Table 5.2.2-1	Model Parameters at Natural Springs and Lakes	113
Table 5.2.2-2	Reclassification of Thematic Maps	119
Table 5.2.3-1	Physical Properties Used in the Analysis Model	125
Table 5.5.1-1	Monthly Mean Temperatures of Groundwater at Different Aquifers in the Observation Wells in South Plain, Viet Nam	147
Table 5.5.1-2	Groundwater and Atmospheric Temperatures in Ho Chi Minh	150
Table 5.5.1-3	Groundwater and Atmospheric Temperatures in Ca Mau	150
Table 6.1	Summary of Lessons Learned for Power Plant and Direct Heat Use	161
Table 6.2	Summary of Lessons Learned for Ground Source Heat Pump	165
