

## List of Figures

Figure 1.1	Total Subsidies in Malaysia	4
Figure 1.2	Economic Impacts of Removing Energy Subsidies and Reinvesting in Other Social and Infrastructure Sectors (Changes from the Reference Case in 2020)	6
Figure 1.3	Five Strategic Pillars of the New Energy Policy	7
Figure 1.4	Power Generation by Fuel, Business-as-Usual Scenario	10
Figure 1.5	Share of Power Generation by Fuel, Business-as-Usual Scenario	11
Figure 2.1	Nested Production Structure	20
Figure 3.1	Decomposition of Petroleum Product Consumption in Thailand	37
Figure 3.2	Petroleum Product Pricing Structure in Thailand	38
Figure 3.3	Thailand's Diesel Subsidy Scheme Using Oil Funds	40
Figure 3.4	Removal of Diesel Subsidies by Increasing the Oil Fund and Tax Relative to Gasoline	42
Figure 3.5	Retail Price of LPG by Sector	43
Figure 3.6	LPG Price Structures for Different Sectors (as of December 2012)	44
Figure 3.7	Consumption Growth of LPG in the Residential Sector	45
Figure 3.8	Sources of LPG in Thailand	46
Figure 3.9	LPG Subsidies Estimation on Price Caps	50
Figure 3.10	LPG Ex-Refinery Price Gap to the World LPG Market Price	51
Figure 4.1	Energy Saving Cost Curve for the Iron and Steel Industry after an Energy Subsidy Reform with a 20 Percent Discount Rate	67
Figure 4.2	CO <sub>2</sub> Abatement Cost Curve for the Iron and Steel Industry after an Energy Subsidy Reform with a 20 Percent Discount Rate	67
Figure 4.3	CO <sub>2</sub> Abatement Cost Curve Considering Adoption Barriers (20 Percent Discount Rate)	71
Figure 4.4	Impacts of the Energy Subsidy on Key Factors (No Barriers, Low Barriers, and High Barriers)	71
Figure 5.1	Primary Source of Energy for Cooking for Urban Households in India	84
Figure 5.2	Primary Source of Energy for Cooking for Rural Households in India	85
Figure 5.3	Impact of the LPG Subsidy Removal on LPG Consumption	94
Figure 5.4	Estimate of the Influence of the Total LPG Consumption on the Total Subsidy Bill of LPG	95
Figure 5.5	Estimates of Government Savings on LPG Consumption (LPGSV) and LPG Subsidies due to Removal of the LPG Subsidy (LPGSS)	96

## List of Tables

Table 1.1	Renewable Energy Policy Planned Outcomes	8
Table 1.2	Initiatives to Drive Energy Efficiency Efforts	9
Table 2.1	Scenario Assumptions	23
Table 2.2	Macro Impacts (%)	24
Table 2.3	Impacts on Output at the Sectoral Level (%)	26
Table 2.4	Compensating Variation and Equivalent Variation (RM billion)	27
Table 2.5	Impacts of the Compensating Policy (%)	27
Table 3.1	Subsidies for Diesel Relative to Gasoline	41
Table 3.2	Annual Average Oil Fund Tax Levels Levied on Petroleum Products	48
Table 3.3	Excise Tax Forgone for Diesel due to Tax Reduction	49
Table 3.4	Estimated LPG Subsidies by Source, 2012	52
Table 3.5	LPG Price Structure, 2013	53
Table 4.1	China's Energy Subsidies, 2010	65
Table 4.2	Parameter Values	76
Table 4.3	Change in Key Factors after Removing the Energy Subsidy (Fully Auctioned)	77
Table 4.4	Change in Key Factors after Removing the Energy Subsidy (Free Allocation Share = 0.5)	78
Table 5.1	Total Subsidy on Kerosene (Rs/litre) and Domestic LPG (Rs/cylinder) (2002–2003 to 2014–2015)	89
Table 5.2	Sector-wise Outgoing Subsidies and their Share of GDP in India (2011–2012 to 2014–2015)	89
