The findings, interpretations, conclusions, and views expressed in their respective chapters are entirely those of the author/s and do not reflect the views and policies of the Economic Research Institute for ASEAN and East Asia, its Governing Board, Academic Advisory Council, or the institutions and governments they represent. Any error in content or citation in the respective chapters is the sole responsibility of the author/s.

This report was prepared by the working group on the 'Addressing Energy Efficiency Through Traffic Improvement' under the Economic Research Institute for ASEAN and East Asia Energy Project. Members of the working group, who represent the participating East Asia Summit countries, discussed and agreed to use certain data and methodologies to assess efficiency improvements in the transport sector. These data and methodologies may differ from those normally used in each country. Therefore, the modelling results presented in this study should not be viewed as official national analyses of the participating countries
