

7. APPENDIX: Biodiesel Fuel Trade Handbook

Biodiesel Fuel Trade Handbook

(The First Edition for Comments)

Palm

Jatropha

Coconut

Rapeseed

Soybean

July 2009

Edited by ERIA Research Project Working Group on

**“Benchmarking of Biodiesel Fuel
Standardization in East Asia”**

Authors

This handbook was edited by ERIA Research Project Working Group on “Benchmarking of Biodiesel Fuel Standardization in East Asia” with result of the studies.

The followings are members of the WG and authors of this handbook.

Dr. Shinichi Goto

WG Leader, Director, Research Center for New Fuels and Vehicle Technology (NFV), National Institute of Advanced Industrial Science and Technology (AIST), Japan

Dr. Lesley Dowling and Dr. Daniel Sheedy

Fuel and Used Oil Policy Section, Department of the Environment, Water, Heritage and the Arts, Australian Government, Australia

Prof. Wugao Zhang

School of Mechanical Engineering, Shanghai Jiao Tong University, China

Dr. Tatang Hernas Soerawidjaja

Chairman, Indonesian Biodiesel Forum/Head, Center for Research on Natural Resource Utilization, Institut Teknologi Bandung, Indonesia

Mr. Soni Solistia Wirawan

Head of Institute for Engineering and Technology System Design, Agency for the Assessment and Application of Technology, Indonesia

Dr. Yuji Yoshimura

Leader, Hydrotreating Catalysis Team, NFV, AIST, Japan

Dr. Mitsuharu Oguma

Researcher, Combustion and Engine Research Team, NFV, AIST, Japan

Mr. Shoichi Ichikawa

Representative of Japan Automobile Manufacturers Association (JAMA), Toyota Motor Corporation, Japan

Dr. Takashi Hoshino

Representative of Japan Automobile Manufacturers Association (JAMA), Isuzu Motors Limited, Japan

Prof. Koji Yamane

Representative of Academia, Dept. of Mechanical Systems Engineering, School of Engineering, University of Shiga Prefecture, Japan

Mr. Akio Imai

Representative of Petroleum Association of Japan (PAJ), Showa Shell Sekiyu K.K., Japan

Mr. Takao Ikeda

New and Renewable Energy Group, Strategy and Industry Research Unit, Institute of Energy Economics, Japan

Prof. Mitsuru Konno

Representative of Academia, Mechanical Engineering, Ibaraki University, Japan

Dr. Harrison Lau Lik Nang

Research Officer, Engineering and Processing Research Div., Malaysia Palm Oil Board (MPOB), Malaysia

Mr. Andrew Saunders and Ms. Philippa Blunden

Policy Analyst, Fuels & Crown Resources Group, Ministry of Economic Development, New Zealand

Ms. Zenada Ygnacio Monsada

Director, Oil Industry Management Bureau, Department of Energy, Philippines

Dr. Rong Yan

Centre Director, Institute of Environmental Science and Engineering, Nanyang Technological University, Singapore

Dr. Young Jae Lee

Leader, Transportation Energy Research Center, Korea Institute of Energy Research, South Korea

Ms. Peesamai Jenvanitpanjakul

Deputy Governor (R&D), Thailand Institute of Scientific and Technological Research (TISTR), Thailand

Dr. Nuwong Chollacoop

Bioenergy Laboratory, National Metal and Materials Technology Center (MTEC), National Science and Technology Development Agency (NSTDA), Thailand

Ms. Hoang Thi Tinh

Vietnam Standards and Quality Center, Directorate for Standards and Quality (STAMEQ), Vietnam

Contents

1. INTRODUCTION	
1.1 Outline of ERIA	7
1.2 Resources and Fuel.....	8
2. ENERGY SITUATION IN THE WORLD	
2.1 Introduction.....	12
2.2 Increase of Energy Demand.....	12
2.2.1 Perspective of World Energy Supply and Demand.....	12
2.2.2 Transportation Sector.....	13
2.3 Trend of International Energy Prices.....	14
2.4 Global Environmental Problems.....	16
2.5 Bio-fuels.....	17
2.5.1 Introduction and Expansion of Bio-fuels.....	17
2.5.2 Direction of Future Bio-Fuels.....	18
3. BIODIESEL FUEL STANDARDIZATION ACTIVITIES	
3.1 EAS-ERIA Biodiesel Fuel Standard: 2008.....	21
3.1.1 Background.....	21
3.1.2 Concepts of Harmonized Specification.....	21
3.1.3 EAS-ERIA Biodiesel Fuel Standard: 2008.....	22
3.2 World Wide Fuel Charter - Biodiesel (B100) Guidelines: 2008.....	23
3.2.1 World Wide Fuel Charter.....	23
3.2.2 WWFC Biofuel Guidelines.....	25
3.3 Measurement Method of Biodiesel Fuel Characteristics.....	29
4. BIODIESEL FUEL QUALITY	
4.1 Oxidation Stability.....	32
4.1.1 Outline of Oxidation Stability.....	32
4.1.2 Antioxidant Additives.....	40
4.1.3 Upgrading of FAME by hydrogenation.....	42
4.2 Fluidity.....	51
4.2.1 Outline of Fluidity.....	51
4.2.2 Fluidity Improvers for Biodiesel Fuels.....	55
4.2.3 Other Countermeasures.....	58
5. POTENTIAL OF OTHER FEEDSTOCKS	
5.1 <i>Jatropha curcas</i> L.	67
5.2 Rice Bran.....	69
5.2.1 Introduction.....	69
5.2.2 Rice Bran Oil.....	71
5.2.3 Characteristics of Rice Bran Oil.....	72
5.2.4 Properties of Rice Bran Oil as a Biodiesel Fuel.....	73
5.2.5 Potential of Rice Bran Oil.....	75
5.3 Outline of Microalgae.....	76
5.3.1 Introduction to Microalgae.....	76
5.3.2 Technology for Biodiesel Production from Microalgae.....	77
5.3.3 Future Challenges.....	80
6. IMPORTANCE OF QUALITY CONTROL AND MARKET ACCEPTANCE	
6.1 Check Method of the Fuel Quality at the Pump.....	81
6.2 Market Experience 1: Quality Control of Biodiesel-Blended Fuels at the Pump	

in Philippines.....	81
6.2.1 Methodology.....	81
6.2.2 Quality Control Improvement Initiatives.....	83
6.3 Market Experience 2: Field Test of BD5, BD20 and BD100 Powered Diesel Vehicles in Republic of Korea.....	84
6.4 Market Experience 3: Biodiesel Fuel Experience in China.....	85
6.5 Market Experience 4: Community Biodiesel Standard for Agricultural Machine in Thailand.....	88
7. CURRENT STATUS OF BIODIESEL FUEL IN EAST-ASIA AND ASEAN COUNTRIES	
7.1 Australia.....	98
7.2 China.....	101
7.3 India.....	105
7.4 Indonesia.....	106
7.5 Japan.....	112
7.6 Malaysia.....	132
7.7 New Zealand.....	137
7.8 Philippines	139
7.9 Singapore.....	154
7.10 Republic of Korea.....	161
7.11 Thailand.....	164
7.12 Vietnam.....	169
8. TRADE AND MARKET DYNAMICS OF BIODIESEL	
8.1 Global Biodiesel Market.....	172
8.1.1 The European Union (EU)	173
8.1.2 The United States.....	175
8.1.3 Asia.....	177
8.1.4 Brazil.....	180
8.2 Biodiesel Price vs Diesel Price.....	181
8.2.1 The United States.....	182
8.2.2 The EU.....	183
9. FUTURE VISION	
9.1 Next Generation Biodiesel Fuels.....	188
9.1.1 Introduction.....	188
9.1.2 Hydrogenated bio-fuel.....	189
9.1.3 R&D Trend of Second Generation Biofuels in Australia.....	191
9.2 Sustainability of Biodiesel Fuel.....	193
9.2.1 Sustainable Biomass Utilization Vision in East Asia.....	193
9.2.2 Other Research Trends on Sustainability of Bioduels.....	193
