

## List of Figures

### Chapter 1A

Figure 1A-1	Industrial energy demand by sector	4
Figure 1A-2	Industrial energy demand by fuel type	4
Figure 1A-3	Industrial energy demand by sector	5
Figure 1A-4	Industrial coal consumption	6
Figure 1A-5	Plot of actual and fitted values for INCL	7
Figure 1A-6	Industrial petroleum product consumption (INPP)	8
Figure 1A-7	Plot of actual and fitted values for INPP	9
Figure 1A-8	Plot of actual and fitted values for INEL	10
Figure 1A-9	Real Oil, LNG, and Coal Price Assumption	11
Figure 1A-10	Transport sector final energy demand by sub-sector	12
Figure 1A-11	Transport sector petroleum product consumption	12
Figure 1A-12	Total jet fuel (TSJF) consumption	13
Figure 1A-13	Transport sector kerosene (TSOK) consumption	13
Figure 1A-14	Total jet fuel (TSJET) consumption	14
Figure 1A-15	Plot of actual and fitted values for TSJET	15
Figure 1A-16	Road sector petroleum product (RDPP) consumption	15
Figure 1A-17	Plot of actual and fitted values for RDPP	16
Figure 1A-18	Plot of actual and fitted values for RDMG	17
Figure 1A-19	Plot of actual and fitted values for RDGD	18
Figure 1A-20	Plot of actual and fitted values for TSFO	19
Figure 1A-21	Residential and commercial sector LPG consumption	20
Figure 1A-22	Residential and commercial electricity consumption	20
Figure 1A-23	Coal production consumption by sector	21
Figure 1A-24	Natural gas consumption by sector	21
Figure 1A-25	Residential and commercial sector gas/diesel oil consumption	22
Figure 1A-26	Plot of actual and fitted values for RECSOILC	23
Figure 1A-27	Total electricity consumption by sector	24
Figure 1A-28	Plot of actual and fitted values for RECSEL	25

### Chapter 1B

Figure 1B-1	Modelling structure	27
Figure 1B-2	Plot of actual and fitted values of total industry sector	28
Figure 1B-3	Plot of actual and fitted values of coal demand	29
Figure 1B-4	Plot of actual and fitted values of gas demand	30
Figure 1B-5	Plot of actual and fitted values of electricity demand	31
Figure 1B-6	Plot of actual and fitted values of jet kerosene demand	32
Figure 1B-7	Plot of actual and fitted values of motor gasoline demand	33
Figure 1B-8	Plot of actual and fitted values of diesel demand	34
Figure 1B-9	Plot of actual and fitted values of others sector demand	35
Figure 1B-10	Plot of actual and fitted values of petroleum products in others sector demand	36

Figure 1B-11	Plot of actual and fitted values of LPG demand	37
Figure 1B-12	Plot of actual and fitted value of electricity demand in other sectors	38
<b>Chapter 1C</b>		
Figure 1C-1	Total final energy consumption by sector, 1990 to 2013	40
Figure 1C-2	Total energy consumption by fuel, 1990 to 2013	41
Figure 1C-3	Plot of actual and fitted values of non-metallic mineral demand in industry	48
Figure 1C-4	Plot of actual and fitted values of coal demand in industry	49
Figure 1C-5	Plot of actual and fitted values of electricity demand in industry	50
Figure 1C-6	Plot of actual and fitted values of diesel for mining and construction demand	51
Figure 1C-7	Plot of actual and fitted values of diesel demand in industry	52
Figure 1C-8	Plot of actual and fitted values of fuel oil demand in industry	53
Figure 1C-9	Plot of actual and fitted values of petroleum products demand in industry	54
Figure 1C-10	Plot of actual and fitted values of motor gasoline demand in transport	55
Figure 1C-11	Plot of actual and fitted values of diesel demand in transport	56
Figure 1C-12	Plot of actual and fitted values of road transport total	57
Figure 1C-13	Plot of actual and fitted values of electricity in rail transport	58
Figure 1C-14	Plot of actual and fitted values of jet fuel	59
Figure 1C-15	Plot of actual and fitted values of fuel oil in water transport	60
Figure 1C-16	Plot of actual and fitted values of diesel in water transport	61
Figure 1C-17	Plot of actual and fitted values of motor gasoline in water transport	62
Figure 1C-18	Plot of actual and fitted values of LPG in commercial sector	63
Figure 1C-19	Plot of actual and fitted values of diesel in commercial sector	64
Figure 1C-20	Plot of actual and fitted values of electricity in commercial sector	65
Figure 1C-21	Plot of actual and fitted values of LPG in residential sector	66
Figure 1C-22	Plot of actual and fitted values of kerosene in residential sector	67
Figure 1C-23	Plot of actual and fitted values of electricity in residential sector	68
Figure 1C-24	Plot of actual and fitted values of biomass in residential sector	69
Figure 1C-25	Plot of actual and fitted values of diesel demand in agricultural sector	70
Figure 1C-26	Plot of actual and fitted values of other petroleum products demand in agricultural sector	72
Figure 1C-27	Plot of actual and fitted values of electricity demand in agricultural sector	73
<b>Chapter 1D</b>		
Figure 1D-1	Energy consumption in iron and steel	75
Figure 1D-2	Electricity consumption in cement	76
Figure 1D-3	Metal and fabricated metal energy consumption	76
<b>Chapter 1E</b>		
Figure 1E-1	Plot of actual and fitted values of coal demand in industrial sector	79
Figure 1E-2	Plot of actual and fitted values of diesel oil demand in industrial sector	80
Figure 1E-3	Plot of actual and fitted values of LPG demand in industrial sector	81
Figure 1E-4	Plot of actual and fitted values of electricity demand in industrial sector	82
Figure 1E-5	Plot of actual and fitted values of natural gas demand in industrial sector	83
Figure 1E-6	Plot of actual and fitted values of fuel oil demand in industrial sector	84
Figure 1E-7	Plot of actual and fitted values of jet kerosene in air transport	85

Figure 1E-8	Plot of actual and fitted values of gasoline in road transport	86
Figure 1E-9	Plot of actual and fitted values of diesel in road transport	87
Figure 1E-10	Plot of actual and fitted values of fuel oil in transport	88
Figure 1E-11	Plot of actual and fitted values of coal in residential sector	89
Figure 1E-12	Plot of actual and fitted values of diesel demand in residential sector	90
Figure 1E-13	Plot of actual and fitted values of LPG demand in residential sector	91
Figure 1E-14	Plot of actual and fitted values of electricity demand in residential sector	92
Figure 1E-15	Plot of actual and fitted values of coal demand in commercial sector	93
Figure 1E-16	Plot of actual and fitted values of diesel demand in commercial sector	94
Figure 1E-17	Plot of actual and fitted values of fuel oil demand in commercial sector	95
Figure 1E-18	Plot of actual and fitted values of LPG demand in commercial sector	96
Figure 1E-19	Plot of actual and fitted values of electricity demand in commercial sector	97
Figure 1E-20	Plot of actual and fitted values of coal demand in agricultural sector	98
Figure 1E-21	Plot of actual and fitted values of diesel demand in agricultural sector	99
Figure 1E-22	Plot of actual and fitted values of gasoline demand in agricultural sector	100
Figure 1E-23	Plot of actual and fitted values of electricity demand in agricultural sector	101
Figure 1E-24	Plot of actual and fitted values of fuel oil demand in agricultural sector	102
<b>Chapter 2A</b>		
Figure 2A-1	Assumption for growth rate of GDP and population	106
Figure 2A-2	Final energy demand by sector	109
Figure 2A-3	Electricity production by fuel type	110
Figure 2A-4	Primary energy consumption and its composition	112
Figure 2A-5	CO <sub>2</sub> Emission from Energy Consumption	113
<b>Chapter 2B</b>		
Figure 2B-1	CO <sub>2</sub> emission of Cambodia in ERIA's Outlook 2016	115
Figure 2B-2	CO <sub>2</sub> emission comparison	116
