

# Major Outcomes of ERIA Research - Overall Activities -

Fukunari Kimura  
Chief Economist

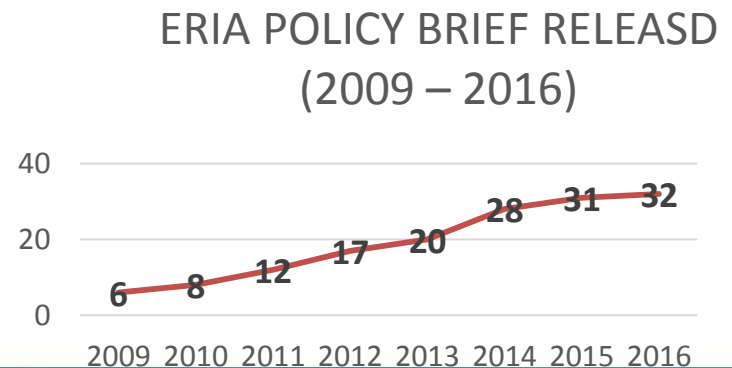

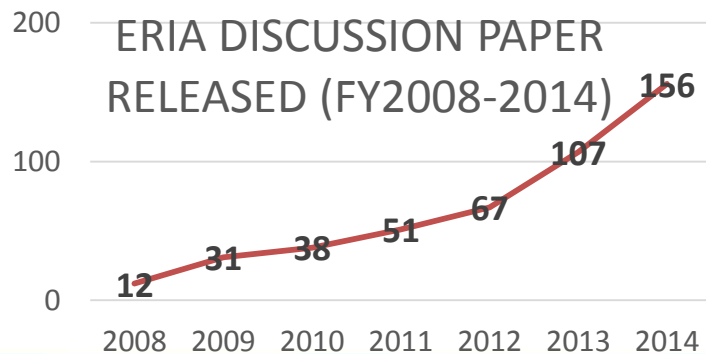

# RESEARCH FOCUS

- ERIA has been accumulated its policy research achievements concentrating on ASEAN since it was established in 2008.
- ERIA conducts research under three pillars:
  - ① Deepening economic integration
  - ② Narrowing development gap
  - ③ Sustainable development

# OUTCOMES & DISSEMINATION

- 13 Economists (19.1% out of ERIA staff) are working on more than 30 projects / year.
- Those research findings and solicit inputs are disseminated as reports, discussion paper and Policy Brief.

# OUTCOMES & DISSEMINATION

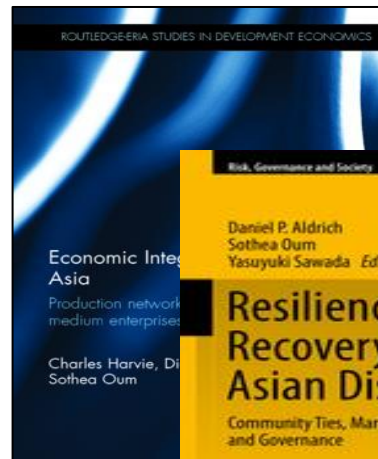

- Participate 150~200 events / year of research projects, symposium organized by other institutions
- Cooperate with ASEAN Secretariat, RIN and ERIN in 16 countries to implement the projects and to share the expertise
  - ❖ ERIA AEC Blueprint Scorecard Project, ASEAN Strategic Transport Plan (2011-2015), MPAC
  - ❖ ABIS, ASEAN Connectivity Symposium and others.
- Contribute to the academic conference in ASEAN, East Asia and in the world
  - ❖ **AEP**: Asia Economic Panel
  - ❖ **EITI**: Empirical Investigations in Trade and Investment
  - ❖ **EAEA**: The East Asian Economic Association and others

# OUTCOMES & DISSEMINATION

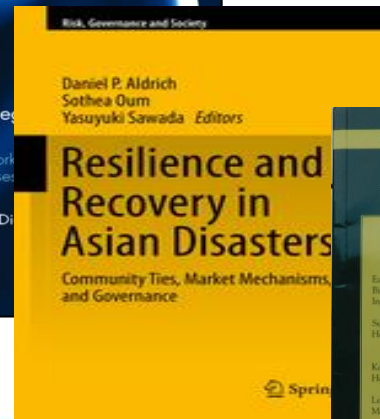

- Papers and articles of ERIA scholars, on their own or jointly with other academics, were published by external publishers.

# APPROACH TO POLICY MAKING

- Covers various range of research field such as trade and investment facilitation, globalization, SME development, human resource development, infrastructure, energy, environmental issues and others.
- Enhances collaboration with other outstanding research organization in the world.
- Academic approach firmly supports ERIA's policy recommendation

# APPROACH TO POLICY MAKING

# Achievement, Challenges and Perspectives

- ERIA has led economic research in ASEAN and East Asia region and contributed to academic development in the region as a centre of the economic research.
- Its approach to policy makers is based on its timely and concrete research work, which has to be further empowered and innovative, in order to keep up with the speed of broadened/deepened GVC in the region.
- ERIA will continuously endeavor to respond bilateral / multilateral / regional demand from ASEAN and East Asia countries, ASEAN Secretariat and external partners through the proactive cooperation with them.
