

## LIST OF FIGURES

|               |  |     |
|---------------|--|-----|
| Figure 1.1-1  | Locations and List of Ethanol Plants in Australia                          | 6   |
| Figure 1.1-2  | Locations and List of Biodiesel Plants in Australia                        | 6   |
| Figure 1.1-3  | Transport Fuel Mix Projection to 2050, by Fuel Type (PJ)                   | 7   |
| Figure 1.1-4  | Biofuel Demand and Supply Potential through 2035 in Australia              | 11  |
| Figure 1.2-1  | Biofuel Demand and Supply Potential through 2035 in Brunei Darussalam      | 13  |
| Figure 1.3-1  | Biofuel Demand and Supply Potential through 2035 in Cambodia               | 16  |
| Figure 1.4-1  | Biofuel Demand and Supply Potential through 2035 in China                  | 23  |
| Figure 1.5-1  | Conventional Bioethanol Trade in India                                     | 39  |
| Figure 1.5-2  | Biofuel Demand and Supply Potential through 2035 in India                  | 41  |
| Figure 1.6-1  | Biofuel Demand and Supply Potential through 2035 in Indonesia              | 54  |
| Figure 1.7-1  | Total Target Volume of Bioethanol Utilization in Japan (In Oil Equivalent) | 57  |
| Figure 1.7-2  | Research Association of Innovative Bioethanol in Japan                     | 59  |
| Figure 1.7-3  | Biofuel Demand and Supply Potential through 2035 in Japan                  | 62  |
| Figure 1.8-1  | Biofuel Demand and Supply Potential through 2035 in Lao PDR                | 69  |
| Figure 1.9-1  | Biofuel Demand and Supply Potential through 2035 in Malaysia               | 82  |
| Figure 1.10-1 | Biofuel Demand and Supply Potential through 2035 in Myanmar                | 89  |
| Figure 1.11-1 | Biofuel Demand and Supply Potential through 2035 in New Zealand            | 95  |
| Figure 1.12-1 | The Framework of National Biofuels Program Development in the Philippines  | 101 |
| Figure 1.12-2 | Biofuel Demand and Supply Potential through 2035 in Philippines            | 111 |
| Figure 1.13-1 | Biofuel Demand and Supply Potential through 2035 in Singapore              | 119 |
| Figure 1.14-1 | Output of Biodiesel in South Korea (unit: toe)                             | 125 |
| Figure 1.14-2 | Biofuel Demand and Supply Potential through 2035 in South Korea            | 127 |
| Figure 1.15-1 | Thailand Alternative Energy Development Plan (2012 -2021)                  | 128 |
| Figure 1.15-2 | Biodiesel Development Plan of Thailand (2008-2021)                         | 129 |
| Figure 1.15-3 | Thailand Policy Body Involved in Ethanol Process                           | 130 |
| Figure 1.15-4 | B2-B4, B5 & Diesel Sales Volume in Thailand (2003-2011)                    | 135 |
| Figure 1.15-5 | Biofuel Demand and Supply Potential through 2035 in Thailand               | 144 |
| Figure 1.16-1 | Biofuel Demand and Supply Potential through 2035 in Vietnam                | 152 |
| Figure 2.1-1  | Framework to Forecast Biofuels Demand                                      | 156 |
| Figure 2.1-2  | Assumption for Crude Oil Price   | 159 |
| Figure 2.2-1  | Model Framework for Biofuel Supply   | 161 |
| Figure 2.3-1  | Bioethanol Demand and Supply Potential                                     | 163 |
| Figure 2.3-2  | Biodiesel Demand and Supply Potential                                      | 163 |
| Figure 2.3-3  | Bioethanol Demand and Supply Potential by Country                          | 164 |
| Figure 2.3-4  | Biodiesel Demand and Supply Potential by Country                           | 165 |
| Figure 3.1-1  | Increase of Market Potential by Market Integration (ktoe)                  | 168 |
