

Acknowledgements

The Economic Research Institute for ASEAN and East Asia (ERIA) is grateful for the guidance from the Singaporean Energy Authority under the Work Stream of Energy Market Integration. ERIA also acknowledges the contributions of the Project Team and contributing authors for the completion of the EMI 2013-2014.

In particular, ERIA is grateful for the valuable comments and feedback from experts attending the 19th Energy Cooperation Task Force (ECTF) meeting on 12 June 2014 in Luang Prabang, Lao PDR.

This study could not have been realised without substantial support and contributions provided by many people (please see details in the List of Project Members).

Special thanks go to Ms. Jennifer Liguton, chief editor and publication director of ERIA, and her team of editors for helping and facilitating the English copy-editing work.

Thanks also go to Fitria Ali and Sagung Anom Setyawati of the Energy Unit at ERIA for their hard work and administrative support.
