The findings, interpretations, and conclusions expressed herein do not necessarily reflect the views and policies of the Economic Research Institute for ASEAN and East Asia, its Governing Board, Academic Advisory Council, or the Institutions and governments they represent.

This report was prepared by the working group on the ‘Study on Energy Efficiency Improvement in the Transport Sector through Transport Improvement and Smart Community Development in the Urban Area’ under the Economic Research Institute for ASEAN and East Asia energy project. Members of the working group, who represent the participating East Asia Summit countries, discussed and agreed to utilise certain data and methodologies to assess the efficiency improvement in the transport sector. These data and methodologies may differ from those normally used in each country. Therefore, the calculated results presented here should not be viewed as official national analyses of the participating countries.
