

Acknowledgements

This study is a joint effort of Working Group members from the East Asia Summit countries and The Institute of Energy Economics, Japan (IEEJ), as well as The Energy and Resources Institute, India (TERI). We would like to acknowledge the support provided by everyone involved. We especially take this opportunity to thank the members of the Working Group, the Economic Research Institute for ASEAN and East Asia (ERIA), and the Sea Lane Security Team of IEEJ and TERI.

Special acknowledgements also go to Dr Tetsuo Morikawa of IEEJ and Mr Siddharth Singh of TERI for their contribution in editing this report.

This study could not have been realised without the invaluable support and contribution provided by many people (please see details in the List of Project Members).

The team would also like to thank Mr Ajai Malhotra, Distinguished Fellow and Senior Advisor (Climate Change), TERI, for his invaluable guidance in sea lane risk analysis and Mr Anandajit Goswami for contributing to and editing parts of the report.

Special thanks go to Ms Maria Priscila del Rosario, chief editor and publication director of ERIA, and her team of editors and publishing staff for helping edit the report and prepare it for publication.
