

LIST OF TABLES

1.1	Developed Energy Security Index in 2011	3
1.2	Self-sufficiency in the Past and Future Outlook	5
2.1	Component of Indigenous Production	7
3.1	Nuclear Power Generation Potential	18
3.2	Renewable Power Generation Potential in Japan	19
3.3	Renewable Power Generation Net potential in Japan	20
3.4	Target for Biomass Utilisation by Type	22
3.5	Energy Saving Potential in Japan	23
3.6	Self-sufficiency Improving Potential in Japan (Base year: 2013)	24
3.7	Self-sufficiency Improving Potential in Japan (Base year: 2010)	26
3.8	Unit Cost of Power Generation by Fuel	27
3.9	Lifetime Cost of Power Generation by Fuel	28
3.10	Investment and Benefit by Sector	30
3.11	Comparison of Costs Needed to Increase Self-sufficiency by 1 Percent	31
3.12	Generation Cost Comparison	33
3.13	Public Burden Resulting from the Realisation of Potential	34
3.14	Impact for Carbon Dioxide Emissions	36
4.1	Total Primary Energy Supply per Gross Domestic Product	38
