

Acknowledgements

The authors thank the Economic Research Institute for ASEAN and East Asia (ERIA) for funding support, especially Mr Shigeki Kamiyama (Managing Director for Research Affairs, ERIA), Mr Shimpei Yamamoto (Former Managing Director for Research Affairs, ERIA), Mr Shigeru Kimura (Special Advisor to the President on Energy Affairs, ERIA), and Dr Venkatachalam Anbumozhi (Senior Economist, ERIA) for useful advice.

The authors are grateful to Dr Shigeru Futamura (National Institute of Advanced Industrial Science and Technology, AIST) who helped manage our working group as a coordinator.

The authors thank the Agency for Assessment and Application of Technology (BPPT, Indonesia), Hanoi University of Science and Technology (HUST, Viet Nam), University of Malaya (UM, Malaysia), Department of Energy (PDOE, Philippines), and National Science and Technology Development Agency/National Metal and Materials Technology Center (NSTDA/MTEC, Thailand) for supporting the working group meetings as host institutes.

Thanks also go to the Energy Research and Development Institute (ERDI) – Nakorping, Chiang Mai University (CMU) and Chemrez Technologies Inc. (Quezon City, Philippines) for accepting technical visits of our working group.
