

## **Acknowledgements**

This analysis has been implemented by a study group under the Economic Research Institute for ASEAN and East Asia (ERIA), consisting of the Department of Energy of the Philippines and the Institute of Energy Economics, Japan (IEEJ). We would like to acknowledge the support provided by everyone involved. We would especially like to express our gratitude to the members of the Study Group, who include experts from the Energy Policy Planning Bureau of the Department of Energy, ERIA, and the IEEJ, as well as the Sim Techno Research Institute, who conducted the dynamic simulation under contract to the IEEJ.

Shigeru Kimura

Leader of the Study Group, ERIA
