

# TABLES, FIGURES, AND BOXES

## TABLES

### PART I

<b>1.1</b>	Group and Sector Specific Adaptation Strategies	10
<b>2.1</b>	Disaster Types in ASEAN, 1986–2015	18
<b>2.2</b>	Categorisation of Economic Loss of Enterprises	24
<b>2.3</b>	Parameters of Buildings' Vulnerability	30
<b>2.4</b>	Total Loss Rates in Aichi Prefecture	32
<b>2.5</b>	Total Loss Rates in Aichi Prefecture	33
<b>2.6</b>	Ratio of Regional Economic Loss for GDP	33
<b>4.1</b>	Effect of Storm and Floods on Rice Exports from Thailand, without Trade Restrictions	81
<b>4.2</b>	Effect of Storm and Floods on Rice Exports from Thailand, with Trade Restrictions	82
<b>4.3</b>	Effects of Flood and Storm on Cassava Exports by Thailand	83
<b>4.4</b>	Effects of Flood and Storm on Thailand's Potato Exports	83
<b>4.5</b>	Effects of Flood and Storm on Thailand's Potato Imports	84
<b>4.6</b>	Effect of Flood, Storm and Earthquake on Indonesia's Cassava Exports	85
<b>4.7</b>	Effect of Storm, Flood and Earthquake on Indonesia's Potato Imports	86
<b>4.8</b>	Effects of flood and storms on Viet Nam's Cassava Exports	86
<b>4.9</b>	Effects of flood and storm on Viet Nam's Potato Imports	87
<b>4.10</b>	Average Dietary Energy Supply Adequacy (%) (3-year average)	88
<b>4.11</b>	Number of People Undernourished (millions) (3-year average) in Thailand	89

<b>4.12</b>	Prevalence of Undernourishment (%) (3-year average) in Thailand	90
<b>4.13</b>	Depth of the Food Deficit in Thailand	91
<b>4.14</b>	Prevalence of Food Inadequacy in Thailand	92
<b>4.15</b>	Value of Food Imports over Total Merchandise Exports (%) (3-year average) in Thailand	93
<b>4.16</b>	Per Capita Food Production Variability (1\$ per person constant 2004-06)	93
<b>4.17</b>	Per Capita Food Supply Variability (kcal/capita/day) in Thailand	94
<b>4.18</b>	Prevalence of Anaemia amongst 5-year old Children in Thailand	95
<b>4.19</b>	Prevalence of Anaemia amongst Pregnant Women in Thailand	96
<b>4.20</b>	Average Dietary Energy Supply Adequacy (%) (3-year average) in Indonesia	97
<b>4.21</b>	Average Value of Food Production (constant 1\$ per person) (3-year average) in Indonesia	98
<b>4.22</b>	Prevalence of Undernourishment (%) (3-year average) in Indonesia	99
<b>4.23</b>	Prevalence of Food Inadequacy in Indonesia	99
<b>4.24</b>	Political Stability and Absence of Violence/Terrorism (index) in Indonesia	100
<b>4.25</b>	Per Capita Food Supply Variability (kcal/capita/day) in Indonesia	101
<b>4.26</b>	Prevalence of Anemia amongst 5-year old children in Indonesia	102
<b>4.27</b>	Effect of Flood on Average Dietary Energy Supply Adequacy (%) (3-year-average) in Viet Nam	103
<b>4.28</b>	Number of People Undernourished (millions) (3-year average) in Viet Nam	103
<b>4.29</b>	Depth of the Food Deficit (kcal/capita/day) (3-year average) in Viet Nam	104
<b>4.30</b>	Per Capita Food Supply Variability (kcal/capita/day) in Viet Nam	105
<b>4.31</b>	Prevalence of Anaemia amongst 5-year old Children in Viet Nam	106

## PART II

<b>5.1</b>	Disasters and Agricultural Damage in Japan, 2006-2015	111
<b>5.2</b>	Impact of Individual Hazards on Agriculture	112
<b>5.3</b>	Comparison between Green Revolution and System of Rice Intensification	125
<b>5.4</b>	Threats to Agricultures and Adaptation Measures	130
<b>6.1</b>	Status of Livestock Production in ASEAN Countries, 2014	144
<b>6.2</b>	Adaptation Programmes by Institutions in Korea	152

<b>7.1</b>	Fish Consumption, Production, and Number of Fisher Families in ASEAN	164
<b>7.2</b>	Changes in Aquaculture Productivity and Yield in Phu Vang District of Viet Nam, 2002-2012	173
<b>7.3</b>	Potential Adaptation Measures in Ocean Fisheries and Inland Aquaculture	176
<b>7.4</b>	Details of Selected Adaptation Options in Fisheries and Aquaculture as Practised in ASEAN Countries	177

### **PART III**

<b>8.1</b>	Food Insecurity in ASEAN 1992-2017 (in % population)	217
<b>9.1</b>	Shocks Faced by Households in Developing Countries	238
<b>9.2</b>	Pros and Cons of Financial Instruments (for Precautionary Actions)	257
<b>9.3</b>	Pros and Cons of Financial Instruments (for Post-Disaster Actions)	258
<b>11.1</b>	Countries with the Best and Worst Food Security Scores in Each Region	295
<b>11.2</b>	Food Security Score of ASEAN Countries	295
<b>11.3</b>	Long-Term Climate Risk Index of the 10 Most Affected Countries, 1996-2015	298
<b>11.4</b>	Proactive and Reactive Measures of Disaster Risk Management	308

### **PART IV**

<b>12.1</b>	Projected Impact of Climate Change on Crop Yields	342
<b>12.2</b>	Population at Risk of Hunger	343
<b>12.3</b>	Population of Malnourished Children Under Age 5	343
<b>12.4</b>	Benchmarks for Mortality Rates	354
<b>12.5</b>	Thailand and Indonesia – Simulated Effects of Food Price Shocks	362
<b>13.1</b>	Effect of Climate Change on Food Production, 2025	388
<b>13.2</b>	Main Agricultural Products in ASEAN	389
<b>13.3</b>	Rice Production in ASEAN Member States, 2015	389
<b>13.4</b>	The ASEAN Food Security Reserve System	392
<b>13.5</b>	Policy Measures Taken by ASEAN Governments to Tackle the 2008 Food Crisis	393
<b>13.6</b>	ASEAN Free Trade Agreements	394
<b>13.7</b>	Inter- and Intra-ASEAN Trade Values	395

<b>13.8</b>	Climate-Smart Options to Improve the Resilience of Agriculture Systems	397
<b>13.9</b>	Synergising the SDGs with the ASEAN Community Pillars	401
<b>13.10a</b>	Information Gaps and Capacity Building Needs for Enhanced Resilience	403
<b>13.10b</b>	Decision Making Capacity and Capacity Building Needs for Enhanced Resilience	404
<b>13.10c</b>	Financial Capacity and Capacity Building Needs for Enhanced Resilience	404

 FIGURES
 

---

**PART I**

<b>2.1</b>	Flowchart to Obtain Economic Loss of Region	20
<b>2.2</b>	Flowchart to Obtain Economic Loss of Enterprises in Case that Production Area is in Disaster Area	24
<b>2.3</b>	Flowchart to Obtain Economic Loss of Enterprises in Case that Production Area is in Disaster Area	25
<b>2.4</b>	Distribution of Ground Motion Intensity	26
<b>2.5</b>	Distribution of Peak Ground Velocity	27
<b>2.6</b>	Distribution of Population	28
<b>2.7a</b>	Distribution of Wooden Buildings	28
<b>2.7b</b>	Distribution of RC Buildings	29
<b>2.7c</b>	Distribution of Steel Buildings	29
<b>2.8a</b>	Distribution of Loss Rate of Capital Stock (Manufacturing Industry)	31
<b>2.8b</b>	Distribution of Loss Rate of Capital Stock (Non-manufacturing Industry)	31
<b>2.9</b>	Distribution of Loss Rate of Labour Input	32
<b>3.1</b>	Rainfall Data Stations in Southeast Asia	39
<b>3.2</b>	Multi-model Mean Temperature Anomaly (°C) under RCP 2.6 and RCP 8.5 for the Months of June to August. (2071-2099 vs 1951-1980)	42
<b>3.3</b>	Multi-model Mean Annual Rainfall Anomaly (%) under RCP 2.6 and RCP 8.5 (2071-2099 vs 1951-1980)	42
<b>3.4</b>	Risk Map of Food Security over Viet Nam	44

<b>4.1</b>	Export Quantities of Rice from Indonesia, Thailand, and Viet Nam	68
<b>4.2</b>	Export Quantities of Banana from Indonesia, Thailand, and Viet Nam	68
<b>4.3</b>	Export Quantities of Cassava from Indonesia, Thailand, and Viet Nam	68
<b>4.4</b>	Export Quantities of Potato from Indonesia, Thailand, and Viet Nam	68
<b>4.5</b>	Import Quantities of Rice by Indonesia, Thailand, and Viet Nam	69
<b>4.6</b>	Import Quantities of Banana by Indonesia, Thailand, and Viet Nam	69
<b>4.7</b>	Import Quantities of Cassava by Indonesia, Thailand, and Viet Nam	69
<b>4.8</b>	Import Quantities of Potato by Indonesia, Thailand, and Viet Nam	69
<b>4.9</b>	Average Dietary Energy Supply Adequacy (%) (3-year average) in Indonesia, Thailand, and Viet Nam	70
<b>4.10</b>	Average Value of Food Production (constant 1\$ per person) (3-year average) in Indonesia, Thailand, and Viet Nam	70
<b>4.11</b>	Share of Dietary Energy Supply Derived from Cereals, Roots and Tubers (%) (3-year average) in Indonesia, Thailand, and Viet Nam	70
<b>4.12</b>	Average Protein Supply (g/capita/day) (3-year average) in Indonesia, Thailand, and Viet Nam	70
<b>4.13</b>	Number of People Undernourished (millions) (3-year average) in Indonesia, Thailand, and Viet Nam	71
<b>4.14</b>	Prevalence of Undernourishment (%) (3-year average) in Indonesia, Thailand, and Viet Nam	71
<b>4.15</b>	Depth of the Food Deficit (kcal/capita/day) (3-year average) in Indonesia, Thailand, and Viet Nam	71
<b>4.16</b>	Prevalence of Food Inadequacy in Indonesia, Thailand, and Viet Nam	71
<b>4.17</b>	Cereal Import Dependency Ratio (%) (3-year average) in Indonesia, Thailand, and Viet Nam	72
<b>4.18</b>	Per Capita Food Production Variability (1\$ per person constant 2004-06) in Indonesia, Thailand, and Viet Nam	72
<b>4.19</b>	Per Capita Food Supply Variability (kcal/capita/day) in Indonesia, Thailand, and Viet Nam	72
<b>4.20</b>	Prevalence of Anemia amongst 5-year old Children in Indonesia, Thailand, and Viet Nam	72
<b>4.21</b>	Prevalence of Anemia amongst Pregnant Women in Indonesia, Thailand, and Viet Nam	73

**PART II**

<b>5.1</b>	Disaster Prevention Projects of Agricultural Land	114
<b>5.2</b>	Climate Change Impact on Adequate Major Crop Cultivation Area	115
<b>5.3</b>	Population in Indonesia	116
<b>5.4</b>	Paddy Cultivation in Indonesia	116
<b>5.5</b>	Greenhouse Gas Emissions in Agricultural Sector	127
<b>5.6</b>	Methane and Nitrous Oxide Gas from SRI Paddy Field	128
<b>5.7</b>	Yield Effect for SRI System in Comparison Trials	129
<b>6.1</b>	Impacts of Disasters and Climate Change on the Livestock Sector	139
<b>6.2</b>	Annual Livestock Production in Korea, 2000-2016	141
<b>6.3</b>	Livestock Production in Major Cities of Korea, 2000-2016	142
<b>6.4</b>	Research on ICT Application in Livestock Farms	148
<b>6.5</b>	Structure of the Proposed ICT System in Farms	149
<b>7.1</b>	Marine and Inland Fishery Production in ASEAN	165
<b>7.2</b>	Contribution to Fishery Production by Country in ASEAN	166
<b>7.3</b>	Real and Estimated Net Fishery Production Changes in ASEAN	169
<b>7.4</b>	Disasters and Climate Change Impact Pathways in Fisheries and Aquaculture	172
<b>7.5</b>	Disaster and Climate Change Factors that Affect Aquaculture Activities in Phu Vang District, Viet Nam	174

**PART III**

<b>8.1</b>	From Local Food Supply to Global Food Value-Chains	194
<b>8.2</b>	Vulnerability to Disaster Damage in the Food Value Chain	195
<b>8.3</b>	Land and Population in Dependence to (a) Malthus and (b) Verhulst	202
<b>8.4</b>	Land and Population in Verhulst Models Modified by Economies of Scale	203
<b>8.5</b>	Actors in the Food Supply Chain	205
<b>8.6</b>	Food Distribution – Scaling up from Local to Global	211
<b>9.1</b>	Disturbed Development Path	235
<b>9.2</b>	Number of Disasters by Region, 1950-2015	236
<b>9.3</b>	Damage Area of Major Agricultural Products in ASEAN by Cause, 2015 (Crop Year 2014/15)	237

<b>9.4</b>	Disaster-Related Aid Commitments	239
<b>9.5</b>	Key Functions of Financial Institutions	240
<b>9.6</b>	Change of Coast and Risks, and Behaviour of Financial Institutions	244
<b>9.7</b>	Financial Instruments for Disaster Risk Management and Food Security by Stage of Action	245
<b>9.8</b>	Annual and Accumulated Commitment by Adaptation Fund	250
<b>9.9</b>	Receipt of Funds by Resources	251
<b>9.10</b>	Catastrophe Bond Scheme	252
<b>9.11</b>	CAT Bond and ILS Risk Capital Issues and Outstanding, 1997-2017	253
<b>9.12</b>	CAT-DDO Transaction	254
<b>9.13</b>	Regional Financial Mechanism	260
<b>10.1</b>	Strengthening Institutional Capacities for Disaster Management and Risk Reduction	280
<b>11.1</b>	Food Security and its Components	292
<b>11.2</b>	The Impact of Disasters in Different Continents, 1996-2016	297
<b>11.3</b>	Overview of Impacts of Natural Disasters and Climate Change on Food and Nutritional Security	299
<b>11.4</b>	Crop and Livestock Losses by Region, 2003-2013	301
<b>11.5</b>	Changes in the Trade Flow of Agricultural Products after Major Disasters by Region, 2003-2013	301
<b>11.6</b>	Projected Increase in Market Export Prices of Different Food Commodities in 2030 Relative to 2010- with and without Climate Change	304
<b>11.7</b>	Projected Number of Malnourished Children in Sub-Saharan Africa in 2050	306
<b>11.8</b>	Overlap between Climate Change Adaptation and Disaster Reduction Risk	309
<b>PART IV</b>		
<b>12.1</b>	Working with Children during Disasters	336
<b>12.2</b>	UNICEF (1998) Conceptual of Malnutrition	337
<b>12.3</b>	Projected Levels of Caloric Consumption in Pacific Island Countries	342
<b>12.4</b>	Disaster Risk Reduction for Food and Nutrition Security Framework Programme	346
<b>12.5</b>	Share of Global Food Consumption by Region, 1990-2009	348

<b>12.6</b>	Share of Global Food Production by Region, 1990–2009	349
<b>12.7</b>	Food Inadequacy in ASEAN Member States, 2014–2016	351
<b>12.8</b>	The World’s Poor, 2010 Estimates	355
<b>12.9</b>	The World’s Undernourished	356
<b>12.10</b>	Percentage of Children under Five who are Stunted in ASEAN Member States	358
<b>12.11</b>	Prevalence of Wasting in Children under Five in ASEAN Member States	358
<b>12.12</b>	Prevalence of Overweight Children under Five in ASEAN Member States	359
<b>12.13</b>	Impact of Higher Food Price Inflation on Health Indicators	360
<b>13.1</b>	Average Annual Damage Caused by Reported Natural Disasters, 1900–2010	390
<b>13.2</b>	Average Tariffs and NTMs in ASEAN	396
<b>13.3</b>	Interlinkages between Climate Change, Hunger, Water, and Sustainable Consumption Related SDGs	398
<b>13.4</b>	Nexus between Disaster Risks and Trade as Perceived through the SDGs	399

**BOXES**
**PART III**

<b>9.1</b>	Goal 2 – End Hunger, Achieve Food Security and Improve Nutrition, and Promote Sustainable Agriculture	232
<b>9.2</b>	Special Measures for Local Governments in Disaster Areas	248
<b>9.3</b>	Steps in Developing Disaster Risk Financing Schemes	259

**PART IV**

<b>12.1</b>	Floods in Sri Lanka, 2016	336
<b>12.2</b>	Indonesian Earthquake, 2006	338
<b>12.3</b>	Vulnerable Populations	339
<b>12.4</b>	Food Security and Climate Change – The Special Case of the Pacific	342
<b>12.5</b>	Food and Nutrition Security Framework Programme	345

<b>12.6</b>	The Cost of Natural Disasters in the Philippine Agriculture Sector	352
<b>12.7</b>	The Cost of Food and Poverty – The Case of Thailand and Indonesia	361
<b>12.8</b>	Social Safety Nets and Food Programmes in Selected Developing ASEAN Countries	363
<b>12.9</b>	The Role of Safety Nets in Reducing Hunger and Malnutrition	365
<b>12.10</b>	Urban Agriculture in Kathmandu, Nepal	370
<b>12.11</b>	ASEAN Plus Three Emergency Rice Reserve	373
<b>12.12</b>	ASEAN Moves Towards an Integrated Community	374
<b>13.1</b>	Defining Factors of Resilience in Food Value Chain	402
