

# TABLE OF CONTENTS

---

**PART 1**      **Key Messages: The Nexus of Agricultural Production Networks and Global Food Value Chains and Natural Disasters**      01

The Perilous Nature of Food Supplies: Natural Hazards, Social Vulnerability, and Disaster Resilience      03  
*Susan L. Cutter*

Losses, Risks, and Vulnerability Induced by Natural Disasters to Agricultural Production Networks and Food Value Chains – Examples from the European Alps      20  
*Margreth Keiler, Sven Fuchs*

The Contribution of Organic Agriculture to Poverty Reduction      42  
*Stefan Anderberg*

---

**PART 2**      **Key Messages: Natural Disasters and Agricultural Production, Numbers, Models, Measures, and Current Policies**      73

Modelling Yield, Natural Resource, and Monetary Losses of Flood and Drought Disasters      74  
*Pedro Chambel-Leitão, Adelio Silva, Pedro Galvão, Ana Oliveira, Tiago Domingos, Ramiro Neves, Tiago Ramos, Lucian Simionesi*

Quantifying Impacts of Climate and Land Use Changes on Soil and Water Management, Community Resilience, and Sustainable Development in Agricultural Watersheds      86  
*Chris S. Renschler, Nigus D. Melaku, Akinjiyan O. Omotayo, Andreas Klik*

Choice of Policy Instruments and Impacts on Land Use and the Food Industry      104  
*Eirik Romstad*

---

<b>PART 3</b>	<b>Key Messages: Lessons to be Learned for Agricultural Production Networks and Food Value Chains</b>	119
	The Different Vulnerabilities of Industrial and Agricultural Products Against Rare Disasters: Lessons to be Learned from the Hard Disk Drive Industry <i>Hiroyuki Nakata, Yasuyuki Sawada, Kunio Sekiguchi</i>	121
	East Asian Production Networks and Lessons for Agriculture <i>Willem Thorbecke</i>	138
	Improving the Resilience of Regional Food Value Chains Against Climate Change and Natural Disasters <i>Venkatachalam Anbumozhi</i>	153
	Bio-industrial Agricultural Production Networks and Robustness Against Disasters: Roles of Information and Communications Technology in Industrial Agricultural Production in the Republic of Korea <i>Hyeon Tae Kim, Malinee Phonsuwan, Byeong Eun Moon, Waqas Qasim</i>	168
<hr/>		
<b>PART 4</b>	<b>Key Messages: Decreasing Vulnerability to Natural Disasters in Agricultural Production Networks and Food Value Chains</b>	181
	Integrated Landscape Management in Slovakia <i>László Miklós, Anna Špínerová, Monika Offertálerová, Victória Miklósóva</i>	182
	Women as Drivers for a Sustainable and Socially Inclusive Development in Mountain Regions – The Case of the Austrian Alps <i>Theresia Oedl-Wieser</i>	195
	Motivation Crowding and Ecological Risks in Vineyards –The Case of the Austrian Agri-environmental Scheme ÖPUL <i>Pia Regina Kieninger, Katharina Gugerell, Vera Wihan, Isabella Auberger, Silvia Winter, Marianne Penker</i>	214
	Effects of Upscaling in Food Supply Chains and Changed Vulnerabilities to Disasters and Food Security <i>Meinhard Breiling</i>	243
<hr/>		

<b>PART 5</b>	<b>Key Messages and Policy Recommendations Conference: Vulnerability of Agricultural Production Networks and Global Food Value Chains Due to Natural Disasters</b>	275
	Appendix: Organisers and Sponsor	278
