

## LIST OF FIGURES

1-1	Principal Forces of Economic Development in ASEAN and East Asia	5	2-7	Consumption-Based Relative Decoupling in ASEAN and East Asia	38
1-2	Changes in the Export Share of ASEAN and East Asian Economies, 1991–2016	7	2-8	Global Growth in Electric Vehicles	42
1-3	Trends in Global Energy Investment	14	2-9	Changes in Renewable Energy Uptake in ASEAN, India, and China, 2011–2020	42
1-4	Changes in Global Energy Demand and Low-Carbon Investment During the COVID-19 Pandemic	15	2-10	Net Zero Scenario by Sector	52
1-5	Sustainable Development Dilemmas of Emerging Economies of Asia	17	2-11	Evolving Carbon Market Mechanisms in East Asia	54
1-6	A Reader's Guide to Navigating the Chapters	23	2-12	CO <sub>2</sub> and GDP Developments in Selected Economies in Asia	57
2-1	Asia's Growing Share of Global GDP, 1960 and 2018	28	3-1	Scenarios Limiting Warming to 1.5°C and 2.0°C	64
2-2	Economic Growth in Asia Across Four Periods of Economic Crisis	29	3-2	Patterns of Decoupling of Carbon Emissions from Economic Growth	69
2-3	Recent Multilateral Free Trade Agreements in the Asia-Pacific and Their Membership	30	3-3	Category of Policy Instruments and Financing Mechanism Being Practised in Developing Countries of ASEAN and East Asia to Reduce Carbon Emissions	78
2-4	Green Job Activities	34	3-4	R&D Expenditure as a Share of GDP Across Regions, 2017 (%)	82
2-5	CO Emissions per Capita vs GDP per Capita, 2020	37			
2-6	Demand-Based Relative Decoupling in ASEAN and East Asia	38			

3-5	Final Energy Consumption by Sector in ASEAN and East Asian Countries, Business as Usual, 1990–2050	86	4-1	A Four-Layer Interacting Actors Framework for a Systemic Strategy of Low-Carbon Green and Inclusive Growth	136
3-6	Final Energy Supply by Fuel in ASEAN and East Asia, Business as Usual, 1990–2050	86	4-2	Stringency Index of the First Lockdown During the Emergency Phase	140
3-7	Pre-COVID-19 Electricity Tariffs for Households in ASEAN Member States	88	4-3	Mapping the Economic Recovery and the Phases of the Epidemic	141
3-8	Tourists Visiting Asia in 2018	92	4-4	ASEAN Comprehensive Recovery Framework	143
3-9	Emission Reduction Potential of CCE Technologies	96	4-5	Nature and Distributional Impacts of COVID-19 on Productivity Across Sectors	151
3-10	Circular and Clean Energy Technology and Investment Road Map for Net Zero Future	106	4-6	Factors Affecting the Low-Carbon Economy Transformation at the Firm Level	156
3-11	Global Stimulus Packages and Green Investments During 2008 Crisis (as of 1 July 2009)	108	4-7	Industry 4.0 Technologies, Business Model, and Innovative Services	160
3-12	Stimulus Packages After the 2008 Financial Crisis and After the Onset of COVID-19	109	4-8	Green Innovation Index and Relative Comparative Advantage of Japan in Low-Carbon Technologies	162
3-13	Country Fiscal Measures in Response to the COVID-19 Pandemic (US\$ Billion)	109	4-9	Conditions Necessary for Improved Economic Performance of SMEs	166
3-14	Country Fiscal Measures in Response to the COVID-19 Pandemic (Share of GDP, %)	110	4-10	Changes in the Air Quality of Major Cities During the Pandemic Lockdown	170
3-15	Share of Fiscal Measures in Response to the COVID-19 Pandemic	110	4-11	Smart City Application Types in ASEAN	172
3-16	ASEAN Carbon Neutrality Scenario in 2050 and Beyond	114	4-12	ASEAN City Mayors' Perspective on Barriers to Sustainable Urbanisation and Mobilising Investments	174

4-13	Key Performance Indicators for Circular Low-Carbon Smart Cities	176	6-1	Regional Cooperation Architecture for Accelerating Low-Carbon Green Growth	262
4-14	Categorisation of Economic Recovery of Stimulus Policies for the Pandemic Recovery in ASEAN and East Asia	178	6-2	Outlook for Integrating Long-Term Low-Carbon Green Growth Objectives in the Pandemic Recovery and Stimulus Packages	266
4-15	Financing Channels for the Pandemic Recovery in ASEAN and East Asia	180			
4-16	An Illustrative Landscape of Low-Carbon Financing in Asia	181			
5-1	Regional Cooperation Initiatives in Asia	198			
5-2	Evolution of Institutions Supporting Regional Cooperation and Economic Integration	200			
5-3	Key ASEAN Cooperation Initiatives on the Economy, Energy, Environment, and Climate Change	201			
5-4	Proposed Regional Cooperation Projects in Energy and Environment	202			
5-5	Number of Flood and Drought Events in Asia	220			
5-6	CO <sub>2</sub> Emissions Embedded in the International Trade of RCEP Countries and India, 2015	224			
5-7	Clean Energy per Capita Investment Across Regions, 2019–2050	231			
5-8	Regional Cooperation Agenda and Financing Opportunities for the Long-Term Green Recovery	234			

## LIST OF TABLES

1-1	Distribution of Economic Development and Income Inequality	9	3-3	Mitigation Targets and Updates of ASEAN and East Asian Countries	70
1-2	Nationally Determined Contributions Set in the Paris Climate Agreement	11	3-4	Summary of Low-Carbon Policies and Initiatives Practised or Proposed in ASEAN and East Asia Countries	74
1-3	Current and Projected Energy Use and Carbon Emission Trends	12	3-5	Key Fiscal, Innovation, and Public Investment Indicators in Asia's Major Economies	83
1-4	Economic Impact of the COVID-19 Pandemic on the Regional Economy	13	3-6	Public Policy Mechanisms for Supporting Low-Carbon Innovations	84
1-5	Share of Low-Carbon Economy Components in the 2008 Green Stimulus	19	3-7	Types of Targeted Support to Electricity Consumers in ASEAN Member States	88
2-1	Progress of Poverty Reduction in the ASEAN+6 in the Last Three Decades	28	3-8	Estimated Impacts of the Pandemic on Agricultural Production in ASEAN	91
2-2	Inequality growth (Gini index), 1990–2019	33	3-9	4R Technologies in Managing Carbon Circularity	95
2-3	Rapid Pace of Urbanisation in Asia, 1991–2020	35	3-10	Six Systems to Low-Carbon and Circular Economy Development in China	97
2-4	Net Zero Emission Targets and Timelines in Asia	48	3-11	Waste Generation in Southeast Asian Countries	98
2-5	Changes in Governments' Fiscal Balances, 2015 and 2020	49	3-12	Waste Management and Recycling Policies of ASEAN Member States	99
3-1	Key Development and Environmental Indicators of Major Economies	66	3-13	Material, Energy, and Waster Efficiency Targets in ASEAN Member States	100
3-2	Economic and Environmental Status Comparison Amongst ASEAN Member States	68			

3-14	Characteristics and Enabling Factors of the Circular Carbon Economy	103	4-7	Types of Industry Targeted by Economic Recovery and Stimulus Policy Measures	153
3-15	Fiscal Measures in Response to the COVID-19 Pandemic of the ASEAN+6	111	4-8	Phases of Green Industrial Development and Supporting Policies in the Republic of Korea	157
3-16	Stimulus Packages of COVID-19 and Green Measures by Country	113	4-9	Investment and Job Creation of Korean Green New Deal	158
3-17	Post-COVID-19 Green Recovery Package Projects by Sector of 20 Countries and the EU	116	4-10	Increase in Internet Use During the Lockdown Period (March–August 2020) for Online Shopping (%)	159
3-18	Share of Environmental Policy Measures in the Recovery Packages of Selected Countries	121	4-11	World Bank Ease of Doing Business Index, 2019	163
3-19	Environmental Policy Measures in Recovery Packages by Country	122	4-12	Economic Distribution of SMEs and its Social Impacts in ASEAN	165
3-20	Examples of Policy Misalignments that Undermine Low-Carbon Investments in Developing Countries of ASEAN and East Asia	129	4-13	City-Level Digital Actions Accelerated During the Pandemic	168
4-1	COVID-19 Impacts and the Phased Approach to Economic Recovery	147	4-14	Medical Waste Generated in Five Megacities of Southeast Asia – Initial Lockdown (April–May 2020)	171
4-2	IEA Analysis of Countermeasures in the Energy Sector	142	4-15	Key Steps in Circular City Formulation	171
4-3	Policy Measures Taken During COVID-19 Crisis	144	4-16	Domain Taxonomy of Smart Cities for Inclusive and Low-Carbon Growth	173
4-4	A Phased Approach to Implementing the ACRF Strategies	147	4-17	Goals and Actors of Smart City Development in the Republic of Korea	177
4-5	Fiscal Expenditure and Public Debt	149	4-18	ESG and Low-Carbon Asset Management in Selected Asian Stock Markets	182
4-6	Manufacturing Industry and Trade Trends of Major Southeast Asian Economies with Japan, 2016	152	4-19	Rationale for Creating Green Investment Banks	189
			4-20	Investor Views on the Challenges of Mobilising Private Finance	190

5-1	IPR Regimes and Low-Carbon Industry Policies in Selected Asian Countries	218
5-2	Australia's States and Territories' Climate Change Commitments	222
5-3	Realised Export Potential with Respect to the Meta-Frontier Countries	225
5-4	Global Trends in Renewable Energy Investment, 2019	232
5-5	Key Funding Mechanisms for Environmental Projects	240
5-6	Tools for Financing Renewable Energy, Southeast Asia	243
6-1	Classification of Low-Carbon Green Growth Policy Instruments Practised in ASEAN and East Asia	257
6-2	Regional Cooperation for Low-Carbon Technology Transfer	263
6-3	Sector-Specific Policy Actions for Achieving Low-Carbon Green Growth in the Developing and Emerging Economies of ASEAN and East Asia	275

## LIST OF BOXES

2-1	ETS Developments in Asia and the Pacific	56	5-3	Technology Transfer Financing	236
3-1	Economic Policy Approaches Adopted by Major Asian Countries for Climate Change Mitigation in the Agriculture and Forestry Sector	91	5-4	Regional Financing for Low-Carbon Urban Development	237
			6-1	Regional-Level Actions for Accelerating Low-Carbon Green Growth in Asia	277
3-2	Supply Chain Opportunity in the Transition Towards a Low-Carbon Economy	94			
3-3	Sustainable Waste Management Ecosystem in Singapore	105			
3-4	Viet Nam's Pandemic Adaptation Policies Towards Green Growth	126			
3-5	The Republic of Korea's Pandemic Adaptation Policies Towards Green Growth	127			
4-1	Growth of the Green Sukuk Bond Market in Malaysia	184			
5-1	China's Electric Vehicle Market – The Success Story	205			
5-2	Ascending Importance of Digitisation – A Gift from COVID-19	229
