

## List of Tables

Table 1-1	Quantity of Mongolia’s Power Generation and Imports	3
Table 2-1	Number of Households in Mongolia’s Provinces	6
Table 2-2	Registered Entities in the Business Register Database, by International Standard Industrial Classification	8
Table 2-3	Cars Included in the Survey, by Engine Displacement	14
Table 2-4	Cars Included in the Survey, by Fuel Type	14
Table 2-5	Types of Industries and Number of Samples Included in the Industry Sector Survey (Energy-Consuming Entities)	16
Table 2-6	Types of Industries and Number of Samples included in the Electricity, Thermal Energy, and Water Supply Sub-sector of the industry Sector Survey (Energy-Transforming Entities)	18
Table 3-1	Number of Households and Type of Dwelling	20
Table 3-2	Household Fuel Consumption	20
Table 3-3	Average Annual Electricity Consumption of Households (kWh/year)	21
Table 3-4	Average Electricity Consumption per Household	22
Table 3-5	Average Total Energy Consumption of Each Urban Household	27
Table 3-6	Average Total Energy Consumption of Each Rural Household	27
Table 3-7	Average Annual Energy Consumption of Each Typical Urban Household in Ulaanbaatar, per household and per floor area comparisons	28
Table 3-8	Average Annual Energy Consumption of Each Typical Rural Household, per household and floor area comparisons	29
Table 3-9	Average Annual Energy Consumption of Herder Households, Intensity per Year	29
Table 4-1	Total Number of Registered Road Vehicles and Those that Passed through Governmental Technical Inspection (2018)	33
Table 4-2	Types of Vehicles that Passed through Technical Inspection (2018)	33
Table 4-3	Main Indicators of Auto Transport	35
Table 4-4	Fuel are Fuel Types in Relation to Road Vehicle Types	36
Table 4-5	Energy Content of Each Fuel Type	36
Table 4-6	Calculated Average Fuel Economies (Fuel Consumption Factors)	36
Table 4-7	Average Trip Distance of Vehicles based on MEEI Survey	37
Table 4-8	Annual Average Mileage for Road Vehicles	37
Table 4-9	Assumed Road Vehicle Fleet Utilisation Rates	38
Table 4-10	Results of Vehicles Survey (Average Value)	39
Table 4-11	Average Aircraft Fuel Consumption Factors	40
Table 4-12	Calculation Results of Road Passenger Mode	41
Table 4-13	Calculation Results of Road Freight Mode (Trucks)	41
Table 4-14	Calculation Results of Rail Passenger Mode	42
Table 4-15	Calculation Results of Rail Freight Mode	42
Table 4-16	Calculation Results of Air Passenger Mode	42
Table 4-17	Comparison of Energy Efficiency of the Transport Sector	43
Table 4-18	Estimated Energy Consumption of the Transport Sector	43
Table 5-1	Energy Consumption of Each Sub-sector (kWh)	46
Table 5-2	Percentage Share of Energy Sources, by Subsector	47
Table 5-3	Average Building Energy Intensity	52

Table 6-1	Energy Consumption in the Industry Sector	60
Table 6-2	Energy Consumption in the Industry Sector (%)	61
Table 6-3	Energy Consumption in the Manufacturing Sector (toe)	62
Table 6-4	Energy Consumption in the Manufacturing Sector (%)	62
Table 6-5	Energy Consumption of the Manufacturing Sector (%)	63
Table 6-6	Energy Intensity	64
Table 6-7	Sales of Manufacturing Sector (million tugrik [₮])	65
Table 6-8	Energy Consumption in Mining and Quarrying Sub-sector (toe)	65
Table 6-9	Energy Consumption Shares of the Mining and Quarrying Sub-sector (%)	66
Table 6-10	Energy Consumption in Mining and Quarrying Sector, by Sub-sector (%)	66
Table 6-11	Energy Intensity	67
Table 6-12	Mining and Quarrying Sales (million tugrik [₮])	68
Table 7-1	Energy Consumption in the ETEWS Sector (toe)	70
Table 7-2	Share of Fuel of Energy Consumption in the ETEWS Sector (%)	70
Table 7-3	Share of Energy Consumption by ETEWS Sub-sector (%)	70
Table 7-4	Energy Intensity	71
Table 7-5	Sales of ETEWS Sector (million ₮)	72

## List of Figures

Figure 1-1	GDP at Current Prices (million tugrik [₮])	1
Figure 1-2	Historical Trend of Power Generation in Mongolia, by Year	3
Figure 1-3	Mongolia's Electric Power Systems	5
Figure 2-1	Statistics on Registered Entities in Mongolia	8
Figure 2-2	Share of Sub-sectors in the Industry Sector, by the Number of Entities	9
Figure 2-3	Share of Residential Sector Samples Taken from Ulaanbaatar	12
Figure 2-4	Number and Share of Residential Sector Samples, by Type of Location	13
Figure 2-5	Share of Commercial Sector Samples, by Type of Building	15
Figure 2-6	Share of the Number of Samples in Each Sub-sector in the Industry Sector Survey (Energy-Consuming Entities)	16
Figure 3-1	Pyramid of Residential Indicators	19
Figure 3-2	Average Annual Electricity Consumption of Households (kWh/hh/year)	23
Figure 3-3	Average Annual Electricity Consumption of Appliances in Ulaanbaatar, per Apartment (kWh/year)	23
Figure 3-4	Share of Electricity Usage in a Typical Urban Apartment, by Appliances (%)	24
Figure 3-5	Average Annual Electricity Consumption of Appliances in Ulaanbaatar, per House (kWh/year)	24
Figure 3-6	Share of Electricity Usage in a Typical Urban House, by Appliance (%)	25
Figure 3-7	Average Annual Electricity Consumption of Appliances in Urban Areas, per Ger (kWh/year)	25
Figure 3-8	Share of Electricity Usage in a Typical Urban Ger, by Appliance	26
Figure 3-9	Comparison of Total Average Annual Energy Consumption per Household between Urban and Rural Areas (KWh/hh/year)	27
Figure 4-1	Pyramid of Passenger Transport Indicators	30
Figure 4-2	Pyramid of Freight Transport Indicators	31
Figure 4-3	Share of Fuel Type Used by Road Vehicles (%)	32
Figure 5-1	Share of Generator Set Installations as the Commercial Sector's Backup Energy Source	46
Figure 5-2	Restaurants, by Size	47
Figure 5-3	Percentage Share of LPG vs Other Energy Sources Used in Restaurants	48
Figure 5-4	Percentage Breakdowns of Hotel Ratings	49
Figure 5-5	Use of Power Source	49
Figure 5-6	Percentage Share of Electricity Consumption vs Fuel Energy Source Used in Office Buildings	50
Figure 5-7	Use of Backup Gensets in Retail Stores and Shopping Centres	50
Figure 5-8	Hospitals Covered by the Survey	51
Figure 5-9	Percentage Share of Electricity Usage vs Fuel Usage	51
Figure 5-10	Average Building Energy Intensity of Each Sub-sector (kWh/m <sup>2</sup> /year)	52
Figure 5-11	Average Building Energy Intensity of hotels (kWh/m <sup>2</sup> /year)	54
Figure 5-12	Average Building Energy Intensity of Shopping Centres and Stores (kWh/m <sup>2</sup> /year)	55
Figure 5-13	Average Building Energy Intensity of Office Buildings (kWh/m <sup>2</sup> /year)	56
Figure 5-14	Average Building Energy Intensity of Hospitals (kWh/m <sup>2</sup> /year)	56
Figure 5-15	Average Building Energy Intensity of Restaurants (kWh/m <sup>2</sup> /year)	56
Figure 6-1	Pyramid of Industry Indicators	57

Figure 6-2	Pyramid of Freight Transport Indicators	58
Figure 6-3	Industrial Energy Consumption , by Sector	61
Figure 6-4	Consumption of Manufacturing Sector, by Sub-sector	63
Figure 6-5	Consumption of Manufacturing sector, by Fuel Type	63
Figure 6-6	Energy intensity of the Manufacturing Sector (toe/million tugrik [₮])	64
Figure 6-7	Type of Energy Consumption of the Mining and Quarrying Sector	66
Figure 6-8	Energy Consumption for Mining and Quarrying, by Sub-sector	67
Figure 6-9	Energy Intensity of the Mining and Quarrying Sector, by Sub-sector (toe/million tugrik [₮])	68
Figure 7-1	Energy Consumption in the ETEWS Sector, by Energy Type and Sub-sector	71
Figure 7-2	Energy Intensity (toe/million ₮)	72
