

## List of Figures

Figure 2.1	Annual Average Electricity Consumption Growth (2000–2018)	4
Figure 2.2	Renewables Cumulative Installed Capacity in ASEAN Countries (2000–2019)	5
Figure 2.3	Annual Renewables Capacity Addition in ASEAN Countries (2001–2019)	5
Figure 2.4	Modern Renewables Share in Total Final Energy Consumption (2000–2017)	6
Figure 2.5	ASEAN Power Grid in the Three Regions	8
Figure 2.6	Electricity Prices and Renewables Costs in ASEAN	10
Figure 2.7	Potentials and LCOEs of Solar PV and Wind Power Across ASEAN Countries	11
Figure 2.8	ASEAN Total Primary Energy Supply across Scenarios	16
Figure 2.9	ASEAN GHG Emissions across Scenarios	17
Figure 2.10	Electricity Generation by Source, Malaysia (1990–2019)	18
Figure 2.11	Electricity Generation Mix in Malaysia (2018)	19
Figure 2.12	Electricity Generation by Source, The Philippines 1990–2019	21
Figure 2.13	Electricity Generation Mix in the Philippines, 2019	21
Figure 2.14	Roadmap for Renewable Energy Development in the Philippines	23
Figure 2.15	Electricity Generation by Source, Thailand (1990–2019)	26
Figure 2.16	Electricity Generation Mix in Thailand, 2019	26
Figure 4.1	Administrative Zones of the Bangkok Metropolitan Area	38

Figure 5.1	Respondent Occupation Percentages	46
Figure 5.2	Electricity Consumption	47
Figure 5.3	Distribution of Monthly Income	48
Figure 5.4	Effects of the COVID-19 Pandemic	49
Figure 5.5	Perceived Importance of Environmental Issues	50
Figure 5.6	Attitudes Towards Climate Change Issue	51
Figure 5.7	Knowledge about Renewable Energy Sources	53
Figure 5.8	Attitudes Towards Renewable Energy	55
Figure 5.9	Knowledge of CDR Technologies	56
Figure 5.10	Attitudes Towards CDR Technologies	57
Figure 5.11	Answer to 'In your Opinion, What Countries Should be at the Foremost in the Development of Carbon Removal Technology?	58
Figure 6.1	Bidding Process Based on the Contingent Valuation Model	63
Figure 6.2	Willingness to Support the Philippines Power Development Plan: 'The Share of Renewable Energy will be Increased from only 30% in 2019 to 50% in 2030'	64
Figure 7.1	Sample Choice Set	73
Figure 7.2	Respondents per Province	78
Figure 7.3	Map with the Distribution of Respondents by Province	78
Figure 7.4	Respondents' Gender	79
Figure 7.5	Respondents' Occupation	79
Figure 7.6	Respondents' Monthly Income	80
Figure 7.7	Main Transportation Mode by Activity	81
Figure 7.8	Respondents' Motorbikes by Brand	81
Figure 7.9	Experience in Driving an Electric Motorbike	82

Figure 7.10	Quiz on Basic Knowledge on Electric Motorbikes	82
Figure 7.11	Factors to Consider when Purchasing a New Motorbike	85
Figure 7.12	Three Most Important Factors to Consider when Purchasing a New Motorbike	86
Figure 7.13	Three Least Important Factors to Consider when Purchasing a New Motorbike	87
Figure 7.14	Respondents' Perception of the Air Quality and Traffic Congestion	88
Figure 7.15	Top Three Actions the Government Could Take to Promote Electric Motorbikes	89

## List of Tables

Table 2.1	APAEC Phase II: 2021–2025 Key Strategies	7
Table 2.2	Opportunities and Barriers for Renewables Development in Selected ASEAN Member States	12
Table 2.3	ASEAN Countries’ Individual (Intended) Nationally Determined Contributions	13
Table 2.4	Renewable Energy Policy Deployment and Development in Malaysia	19
Table 2.5	Energy Policies in Malaysia	20
Table 2.6	Renewable-energy-based Capacity Installation Targets in the Philippines	22
Table 2.7	Projected Milestones (2011–2030) (the Philippines)	23
Table 2.8	Energy Policies in the Philippines	24
Table 2.9	Energy Policies in Thailand	27
Table 3.1	Survey Period	30
Table 3.2	Sample Questions from the DCE Survey	31
Table 3.3	Attributes and their Levels by Country	32
Table 3.4	Capacity Installation Targets of the Philippines	34
Table 3.5	Number of Choice Sets and Blocks for Each Country	35
Table 4.1	Summary of Sampling Strategies	37
Table 4.2	Overview of Randomly Selected Sub-districts	39
Table 4.3	Multi-stage Stratified Sampling in Bangkok	40
Table 4.4	Overview of the Sampling Area	41
