

## List of Figures

Figure 1.1	Current Power Supply Structure in Indonesia (2019)	2
Figure 1.2	Power Supply Mix and Projected Grid Emission Factors	4
Figure 1.3	Electricity Supply Planning in the PLN	5
Figure 1.4	Current Power Supply Structure in Malaysia (2019)	9
Figure 1.5	Power Supply Plan for Peninsular Malaysia (2021–2039)	10
Figure 1.6	Prospects for the Power Supply Capacity Mix in the Malay Peninsula	12
Figure 1.7	Current Power Supply Structure in the Philippines (2019)	14
Figure 1.8	Future Power Supply Structures	15
Figure 1.9	Promising Candidate Sites for Renewable Energy	19
Figure 1.10	Current Power Supply Structure in Thailand (2019)	21
Figure 1.11	Current Power Supply Structure in Viet Nam (2019)	28
Figure 1.12	Share of Power Generation Capacity (2020/2030/2045)	30
Figure 2.1	World Ammonia Production	35
Figure 2.2	World Ammonia Supply and Demand	36
Figure 2.3	Levelised Cost of Electricity	48
Figure 2.4	CO <sub>2</sub> Emissions during the 40-year-long Operating Period	50
Figure 3.1	Share of Coal Power Generation in ASEAN 5 Countries	51
Figure 3.2	Overview of Methodology	53
Figure 3.3	Location of Coal Power Plants in Five Countries	54
Figure 3.4	Coal Power Capacity by 2050 (Indonesia)	56
Figure 3.5	Coal Power Capacity by 2050 (Malaysia)	57
Figure 3.6	Coal Power Capacity by 2050 (Philippines)	58

Figure 3.7	Coal Power Capacity by 2050 (Thailand)	59
Figure 3.8	Coal Power Capacity by 2050 (Viet Nam)	60
Figure 3.9	Fuel Input and CO <sub>2</sub> Emission by 2050 (Indonesia)	62
Figure 3.10	Fuel Input and CO <sub>2</sub> Emission by 2050 (Malaysia)	62
Figure 3.11	Fuel Input and CO <sub>2</sub> Emission by 2050 (Philippines)	63
Figure 3.12	Fuel Input and CO <sub>2</sub> Emission by 2050 (Thailand)	64
Figure 3.13	Fuel Input and CO <sub>2</sub> Emission by 2050 (Viet Nam)	65

## List of Tables

Table 1.1	Outline of Nationally Determined Contribution	5
Table 1.2	Outline of Nationally Determined Contribution	10
Table 1.3	Power Supply Capacity Outlook (2020, 2040) (REF)	16
Table 1.4	Electricity Generation Outlook (2040) (REF and CES)	17
Table 1.5	Outline of Nationally Determined Contribution	17
Table 1.6	Total Capacity under PDP 2018 (MW)	22
Table 1.7	Share of Fuel Used in Power Generation (%)	23
Table 1.8	Outline of Thailand's Nationally Determined Contribution	24
Table 1.9	Number of Plants and Installed Capacity of Renewable Energy	25
Table 1.10	Outline of Viet Nam's Nationally Determined Contribution	31
Table 2.1	Comparison of Ammonia, Methane, and Hydrogen	37
Table 2.2	Assumptions about Capital and O&M Costs	45
Table 2.3	Assumptions about Coal	47
Table 2.4	Assumptions about Ammonia	47
Table 2.5	Discounted Total Cost and Generated Power	49
Table 3.1	Scenario for Additional Coal Power Capacity	52
Table 3.2	Reduced CO <sub>2</sub> and NH <sub>3</sub> Demand by Coal Ammonia Co-firing in 2050	61
