

Acknowledgements

This study is a joint effort of working group members from the East Asia Summit countries; Economic Research Institute for ASEAN and East Asia (ERIA); and The Institute of Energy Economics, Japan (IEEJ). We acknowledge the support from everyone involved. We especially take this opportunity to thank the members of the working group; the ERIA energy team; the International Affairs Division of the Agency for Natural Resources and Energy of Japan's Ministry of Economy, Trade and Industry; and IEEJ's energy outlook-modelling team.

Special acknowledgement goes to Dr. Han Phoumin, Dr. Alloysius Joko Purwanto, Ms. Clara Gillispie, Ms. Cecilya Laksmiwati Malik, and Ms. Hien Dang for their contribution to the technical editing of the report.

The study could not have been realised without the invaluable support and contributions provided by the authors from each country.

Special thanks go to Mr. Stefan Wesiak, chief editor and publication director of ERIA, and his team of editors and publishing staff for helping edit the report and prepare it for publication.
