

List of Figures

Figure 2.1	Flow of the Bottom-up Energy Demand Model	7
Figure 2.2	Schematic Concept of Life Cycle Inventory	8
Figure 2.3	LEAP Calculation Flows	10
Figure 2.4	Validation of Vehicle Numbers for Five ASEAN Countries and India for (a) Passenger Cars and (b) Motorcycles	12
Figure 2.5	Activity and Source Structure in the Energy Sector	17
Figure 2.6	GHG Emission Factors of Grid Electricity in the ASEAN Countries and India	19
Figure 2.7	Projection of Well-to-Wheel Emissions for EV Penetration Without Improvement in Electricity Sources (a) Cars and (b) Motorcycles – ‘EV-NoBiofuel-NoGridImprove’	23
Figure 2.8	Projection of Well-to-Wheel Emissions for EV Penetration with Improvement in Electricity Sources (by Applying Renewable Electricity, e.g. solar PV, wind) (a) Cars and (b) Motorcycles – ‘EV-NoBiofuel-GridImprove’	24
Figure 2.9	Projection of Well-to-Wheel Emissions When Applying Biofuel Policy for On-road Conventional Vehicles (a) Cars and (b) Motorcycles – ‘EV-Biofuel-GridImprove’	25
Figure 2.10	Projection of Total Well-to-Wheel Emissions from (a) Cars and (b) Motorcycles in 5 ASEAN Countries and India	26
Figure 2.11	Neodymium Demand Forecast	27
Figure 2.12	Cobalt Demand Forecast	27
Figure 2.13	USGS, IEA, and ERIA Project Forecast for Neodymium	28
Figure 2.14	USGS, IEA, and ERIA Project Forecast for Cobalt	29
Figure 3.1	(a) Thailand’s Long-Term Low Greenhouse Gas Emission Development Strategy (LT-LEDS); (b) Timeline of Transport Decarbonisation via EVs and Biofuels	35
Figure 3.2	(a) Thailand’s Draft National Energy Plan; (b) Details of Key Policies; (c) EV30by30 Target	36
Figure 3.3	Thai Industrial Standards for (a) Electric Cars, (b) Electric Motorcycles, and (c) Charging Equipment	39
Figure 3.4	Number of xEV Registrations in Thailand: (a) Accumulated Records Up to 2022, (b) New Sale in 2022, and (c) New Sales During January–May 2023	40
Figure 3.5	Number of Charging Stations in Thailand	42

Figure 3.6	xEV Wholesale Projections	46
Figure 3.7	BEV Tax Breakdown: BAU, Current, and Further Implementation	48
Figure 3.8	EV Wholesales by Year	49
Figure 3.9	Map of Charging and Battery Swap Stations, as of December 2022	52
Figure 3.10	Grid Electricity Emissions	53
Figure 3.11	Comparison of Road Transport Energy Consumption and Emissions	54
Figure 3.12	Electrical Energy for EV Demand Forecast	55
Figure 3.13	Battery Electric Vehicle Components Roadmap	57
Figure 3.14	Cost Structure of Current and Future BEVs Compared to ICEVs	58
Figure 3.15	Volume-weighted Average Li-ion Battery Pack and Cell Price Splits	59
Figure 3.16	India's Installed Electricity Capacity, 2023, and Gross Generation, 2022–2023	61
Figure 3.17	Projected Generation Capacity by Source in 2029–2030	62
Figure 3.18	Estimated CO ₂ Emissions from the Power Sector, 2019–2030	62
Figure 3.19	Two-Wheeler Ownership Projection for India	65
Figure 3.20	Vehicle Ownership Projection for India	65
Figure 3.21	Passenger Car Sales by Scenario, 2019 and 2040	66
Figure 3.22	Total Number of In-use E2Ws	76
Figure 3.23	E2W Market Share by Manufacturer in 2020	77
Figure 3.24	Number of HEVs Sold in Viet Nam	77
