

List of Figures

Figure 2.1	Regional coverage	4
Figure 2.2	Power generation for 2018 and 2040	5
Figure 2.3	Monthly power demand (Thailand): Ratio to annual average	6
Figure 2.4	Wind power resources of Europe and ASEAN	7
Figure 2.5	Solar resources of Europe and ASEAN	7
Figure 2.6	Potential for wind power/solar power in each region	8
Figure 2.7	Example of offshore wind power generation output patterns (Viet Nam)	9
Figure 2.8	Example of solar power generation output patterns (Viet Nam)	9
Figure 2.9	Capacity credit estimates for solar PV (International Renewable Energy Agency)	10
Figure 2.10	Hydro, geothermal, and biomass potential	11
Figure 2.11	Assumptions for coal prices	12
Figure 2.12	Assumptions for natural gas prices	12
Figure 2.13	LCOE of power sources	14
Figure 2.14	Interconnection projects of the ASEAN Power Grid	15
Figure 2.15	Illustration of carbon capture and storage	18
Figure 3.1	Overview of the optimal power generation mix model	20
Figure 4.1	Comparison of the base case with the ERIA Outlook (power generation mix in 2040)	23
Figure 4.2	The base case (trade flows)	24
Figure 4.3	The planned interconnection case	25
Figure 4.4	The US\$50/tCO ₂ carbon price case with existing interconnection	26
Figure 4.5	The US\$50/tCO ₂ carbon price case with planned interconnection	27
Figure 4.6	Power generation mix by carbon price	28

Figure 4.7	Changes in the total annual system cost (eight areas in total): Impact of carbon pricing	29
Figure 4.8	Changes in the total annual system cost (eight areas in total): Capacity of interconnection lines and impact of the fuel price	30
Figure 4.9	Quantity of batteries introduced (eight areas in total)	31
Figure 4.10	Comparison of differences in results depending on the presence of interconnection lines	32
Figure 4.11	Power generation mix with and without thermal power lower limits	33
Figure 4.12	Trade flows with and without thermal power lower limits	33
Figure 4.13	Power generation mix of the 2040 and 2050 solar PV price cases	35
Figure 4.14	Power generation mix in the cases of the base prices and the high fuel prices	36
Figure 4.15	Trade flows in the cases of the base prices and high fuel prices	37
Figure 4.16	Power generation mix (externality case)	38
Figure 4.17	Differentiation index	39
Figure 4.18	Trade flows in the cases of uniform and differentiated carbon prices	40
Figure 4.19	Power generation mix for the cases with uniform and differentiated carbon prices	41
Figure 4.20	Power generation mix with carbon prices of US\$0/tCO ₂ and US\$50/tCO ₂	42
Figure 4.21	Change in total cost and CO ₂ emissions	43
Figure 4.22	Power generation mix and the total annual cost in Cambodia	44
Figure 4.23	Power generation mix and the total annual cost in the Lao PDR	45
Figure 4.24	Power generation mix and the total annual cost in Myanmar	46
Figure 4.25	Power generation mix and the total annual cost in Peninsular Malaysia	47

Figure 4.26	Power generation mix and the total annual cost in Singapore	48
Figure 4.27	Power generation mix and the total annual cost in Sumatra	49
Figure 4.28	Power generation mix and the total annual cost in Thailand	50
Figure 4.29	Power generation mix and the total annual cost in Viet Nam	51
