CHAPTER 5

Background Data for Constructing Quantitative Measures

This chapter contains the list of the tables of the background data to develop the quantitative measures presented in previous chapters.

The quantitative measures on services liberalization (Chapter 2) are based on the background data compiled by a team of researchers led by Dr. Philippa Dee, with close collaboration with project members from research institutes in ASEAN member countries. The quantitative measures on trade facilitation (Chapter 3) are based on the background data compiled by a team of researchers led by Dr. Christopher Findlay. The quantitative measures on FDI policy (Chapter 4) are based on the background data compiled by a team of researchers led by Dr. Shujiro Urata, with close collaboration with project members from research institutes in ASEAN member countries.

All tables are downloadable from the website of ERIA (<http://www.eria.org>).

Note: Table1-1a - 4-8b were revised on March 2011.
