

## **ACKNOWLEDGEMENTS**

This analysis has been implemented by a working group under ERIA and all the authors are thanked for their work. We would also like to acknowledge the support provided by Professor Shujiro Urata for the design of the project and for his comments on the work in progress. ERIA hosted a meeting of the working group in January 2011. We thank ERIA staff, particularly Mr Mitsuo Matsumoto, Managing Director for Research Affairs, for their support for that meeting and its organization, as well as for the organization of the project. Assisting at the meeting in Jakarta was Ms Kennial Laia from University Padjadjaran. A further working meeting was held in Singapore in April 2011 and we thank Associate Professor Shandre Thangavelu for his assistance in the arrangements for that meeting. Mr Michael Cornish managed the project from the School of Economics at the University of Adelaide, and in particular oversaw the arrangements for the meeting. Mr Anas Al Daboubi, Ms Oana Manole and Mr Simon Firth from Adelaide Research & Innovation managed the University of Adelaide contracts for the project. Professor Jenny Corbett and Dr Ying Xu at the Australia National University, who were working on a parallel project on financial integration, provided support for the development of this work on FTAs and on the specification of its scope, as well as providing advice on arrangements for the work. Professor Jenny Corbett assisted in the liaison in Canberra with officials at AusAID and at the Australian Department of Foreign Affairs and Trade, who also commented on the project's scope and supported its implementation. The papers were edited by Dr Nicola Chandler and all the team members thank her for her contribution.
